

## FRUITVALE POST OPENS CHARTER TO NEW MEMBERS

Veterans Who Have Seen  
Foreign Service Asked To  
Enter Ranks.

A meeting of the newly organized Fruitvale Post of the Veterans of Foreign Wars of the United States will be held tomorrow at 8 p. m., in Lincoln hall, 3235 East Fourteenth street, near Fruitvale avenue. New applications for membership will be welcomed. It is announced, and all men who have seen foreign service are invited to be present.

The new post was organized last Friday and application made to the national headquarters for a charter. The charter is to be kept open for thirty days for the admission of new members. By unanimous vote Friday it was decided to name the post, Lieutenant Haskell F. Waterhouse Post, subject to the approval of the national headquarters.

E. C. Parker, chief quartermaster, U. S. N., was elected temporary chairman. George Volkman was made temporary adjutant and the post as a whole pledged itself earnestly to cooperate in the canvass of Fruitvale and East Oakland territory to procure new members.

Commander T. G. Foster of Astor Post and Commander Scheraga of the state council of administration, addressed the meeting and pledged the support of Astor Post and the state officers in building up the new post. Mrs. Kate Hutchison, national vice-president of the Ladies' Auxiliary to the Veterans of Foreign Wars, and who is supervising the organization of an auxiliary to the new post, spoke concerning the eligibility of wives, mothers and sisters of veterans to belong to the auxiliary. Formal application will be made by the women for their charter. A meeting of the auxiliary will be held tomorrow also.

## SILENT TRIBUTE PAID.

PORTLAND, Ore., July 28.—Mayor George T. Baker, Adjutant General George A. White and a company of Oregon National Guardsmen were at the Union station here last night to greet a train bearing the bodies of 44 Oregon and Washington soldiers who lost their lives in France in the late war. There were no speeches, but the officials and troops paid silent tribute.

## NATURE PUT IRON FOR YOUR BLOOD

In the husks of grains and the peels and skins of fruits and vegetables, but modern methods of cooking throw all these things away—thus the starvation diet of anemia—iron starvation of the blood, with its never ending trend of symptoms of nervous irritability, general weakness, fatigue, disturbed digestion, headaches, pains across the back, etc.

Either go back to nature or take organic iron—Nuxated Iron—to help enrich your blood and realize your utmost potentialities. Over 4,000,000 people are using it. Nuxated Iron is sold by all druggists—Advertisement.

## Brave Bolshevik Terrors

MRS. C. D. SUTTON of London and her daughter Pamela, who were held as prisoners eighteen months in Siberia by the soviet forces, uncertain as to whether they would be freed or put to death.

## 512 New State Laws Will Be Effective at Midnight

SACRAMENTO, July 28.—(United Press.)—After midnight tonight it will be illegal to sell less than 16 ounces in a loaf of bread, bribe a baseball player or let your dog run at large on a cattle range.

In addition some 500 other things will become illegal or legal at the same time, for 512 of the more than 900 laws the legislature passed and the governor signed will go into effect with the stroke of midnight.

The laws effective tonight include the soldier welfare bills under which a total of three and a half million dollars is appropriated to give soldiers educational opportunities and to assist them in buying homes and farms.

Others of importance effective tonight include: Providing for the leasing of oil and mineral lands owned by the state. Authorizing the establishment of separate schools for Japanese. Prohibiting hanging youths under 18 years of age. Forbidding the bribing of a base-

ball player or "throwing" a baseball game.

Removing the regulations under which divorce complaints go on secret file. Designating Armistice Day a legal holiday.

Setting 16 and 24 ounces as the minimum weights for loaves of bread. Prohibiting dogs running at large and providing for the collection of damages when dogs kill livestock. Appropriating \$200,000 for surveying the state's water power resources.

The remaining bills passed by the legislature and signed by the governor will become effective September 1.

## Turks Routed From Peninsula By Greek Force

Information Indicates Complete Defeat of Nationalists; 60,000 Slain.

LONDON, July 28.—(By the Associated Press.)—The Turkish Nationalists have decided to evacuate the Ismid peninsula, says an Exchange Telegraph dispatch from Constantinople today, owing to the Greek advance in the direction of Adabazar at the base of the peninsula, which lies to the east of Constantinople, between the Sea of Marmora and the Black sea.

Information from all sources indicate that the resistance of the Turkish Nationalists in Asia Minor is completely broken, the Greek official news agency declares in a statement issued here today.

The Turkish losses in killed, wounded and prisoners to date are estimated at 60,000. The Greeks, the statement says, are constantly pressing the Kemalists along the road to Angora.

LONDON, July 28.—Mustapha Kemal Pasha, head of the Turkish Nationalist government, has sent a telegram to Constantinople asking that the central government intervene with the allies in an effort to obtain a cessation of Greco-Turk hostilities, according to despatches from Constantinople to the Exchange Telegraph company.

CONSTANTINOPLE, July 28.—A Greek ship today approached Samsun on the south shore of the Black sea with the intention of bombarding the town, but the commander from firing, pointing out that lying off the coast dissuaded its commander from firing, pointing out that such action might endanger the Greek population.

## Spain Loses Heavily In Moroccan Revolt

PARIS, July 28.—The native uprising against the Spaniards in Morocco has become general throughout the mineral and agricultural district of Kert, according to a despatch received here today from Oran.

The rebel tribesmen have artillery and are reported to be bombarding the important coast city of Melilla. The Spaniards are said to have suffered heavy losses.

Following the capture of Marchiva, the tribesmen sought their way to the coast and established positions on Cape Agua.

The landing of Spanish reinforcements at Melilla has been rendered perilous by the Moroccans. The insurgents are burning villages and farmsteads but are not injuring the inhabitants.

The French government has taken precautionary measures to guard against an uprising in French Morocco. Outposts on the Spanish-French line in Morocco have been recalled for fear they would be attacked by overwhelming numbers of natives and massacred.

FIRE DESTROYS HAY. WALNUT CREEK, July 28.—Two fires within one hundred yards of each other burned over a small tract of land near the Lafayette cemetery Tuesday afternoon and destroyed about ten shocks of hay. The blaze was extinguished before it gained headway into a field of cut grain. Farmers feel certain that the fires were of incendiary origin and are keeping a close watch along the highways. Loss from the fires was small.

## RUSS RED TERROR VICTIMS REACH S. F. PORT SAFELY

London Matron and Her Two Daughters Brave Hostile Elements.

SAN FRANCISCO, July 27.—After having run the gauntlet of hostile Soviet forces in Siberia and being held for eighteen months at Blagoveshchensk in uncertainty as to whether death or safe conduct to civilization would be the outcome of official decision, Mrs. C. D. Sutton, of London, with her two daughters, Pepita and Pamela Sutton, arrived here today from the Orient on the Tenyo Maru.

For an equal length of time Mrs. Sutton's husband was held as a military prisoner by the Reds but was finally released and, according to her statement, has become so popular with them that he is operating a gold dredge on the Amur river for the Soviet government.

The Suttons, when they passed through San Francisco several years ago on their way to the Orient, received considerable attention in social and military circles. Sutton was an officer in the British army and was one of the first of the wounded men to come to California.

He had lost his right arm and while here caused an automobile to be especially constructed for a one-armed man. He now has this machine in Siberia where his work includes construction engineering as well as development of Soviet gold concessions.

Mrs. Sutton and her daughters expect to stay in California for a month. After a few days' rest at the Del Monte Hotel and then spend a considerable time visiting friends in San Mateo.

Pepita Sutton, the youngest daughter, was born in London on April 21, 1916, during the height of a Zeppelin raid on the British capital. One of the German bombs struck a building next to the one occupied by Mrs. Sutton and her child, inflicting heavy loss of life.

The elder daughter, Pamela, was born in Mexico City, where Mr. Sutton was stationed for a time in connection with British mining interests.

## U. S. Asked to Buy Monticello at Half Million

NEW YORK, July 28.—Reports that Monticello, the home of Thomas Jefferson, near Charlottesville, Va., is on for market, were confirmed today by Jefferson M. Levy, former congressman and present owner of the historic estate. Levy said he had made efforts to have the government buy the estate as a summer home for presidents and stated he will be willing to sell Monticello to the government for \$500,000. He values the estate at \$1,000,000.

He had lost his right arm and while here caused an automobile to be especially constructed for a one-armed man. He now has this machine in Siberia where his work includes construction engineering as well as development of Soviet gold concessions.

Mrs. Sutton and her daughters expect to stay in California for a month. After a few days' rest at the Del Monte Hotel and then spend a considerable time visiting friends in San Mateo.

## WRITER TO LIFT VEIL OF MYSTERY FROM RUSSIANS

Frederick McCormick, Authority On Eastern Affairs, Engaged By TRIBUNE.

Intimate tales of the great political efforts made by Japan in expanding her territory and industry; of the mystery of the great "Trans-Siberian Railroad," of "Russian Gold in the Siberian Klondike," and "Things American in East Siberia," and all of the romance, the misery and mystery of the struggling republic of the far east will be related each Sunday in The OAKLAND TRIBUNE by Frederick McCormick, authority on Russia, who spent twenty-one years as a newspaper correspondent in that country.

McCormick's articles on the advancement of the republic on frozen shores will appear exclusively in The TRIBUNE. The new special correspondent for The TRIBUNE has penetrated into sections of Siberia and East Russia, where the inhabitants wear fish skin clothes—elsewhere unknown—and where reindeer are domesticated—as are horses and even in this country.

During the Russo-Japanese war, McCormick was present at more than eighteen of the more important battles with the Russian army, and following the end of the war, went with the Russian executives to Japan

to evacuate 80,000 Russian prisoners of war. McCormick returned to Russia some time ago, the eighth trip he has made to the country practically unknown to the people of the United States. His first article will appear in The TRIBUNE, Sunday, August 31.

SILVER FROM GERMANY. NEW YORK, July 28.—Silver valued at from \$750,000 to \$800,000 to be converted into dollar credits

SLEEP 127 DAYS. LOUISVILLE, Ky., July 28.—Physicians announced that Michael Fitzgerald, 13, ill with sleeping sickness, entered upon the hundred and twenty-seventh day of his illness without a waking moment. Since March 22 he has been fed liquid food with water at intervals.

## JOHN F. MADDEN SAYS HE'S NEVER SEEN ITS EQUAL

"I have never seen a medicine during the seventy years of my life that would build a man up and put him in good health like this Tanlac does," said John F. Madden, a native son of San Francisco, residing at 2925 Howard street. Mr. Madden is a retired salesman, and is well known and highly respected along the entire Pacific Coast.

"For forty-two years I was a traveling salesman and had just as good health as a person could ask for, but in 1918 I suffered from a breakdown, a case of nervousness it seemed, and as a result the past three years have been very miserable ones for me. Why, I was so nervous I could scarcely write and I could not sleep. It was to get a good night's sleep. My appetite dwindled away to almost nothing, and I became so weak and worn out I was just about all in."

"I read a statement one day about Tanlac that struck me so forcibly I lost no time in getting a bottle of the medicine. I have taken two bottles so far, and it is simply astounding. It has already given me a wonderful appetite, and my nerves are in such good condition I sleep like a top every night. I am now feeling stronger, too, and at the rate I am now improving I will soon be perfectly well in every way. I heartily recommend Tanlac to anyone suffering like I did, it certainly delivers the goods."

Tanlac is sold in Oakland by The Owl Drug Company and leading druggists everywhere. — Advertisement.

## WOMAN AVOIDS AN OPERATION

Hope Nearly Gone, but Lydia E. Pinkham's Vegetable Compound Saved Her

Star, N. C.—"My monthly spells have me so much trouble, sometimes they would last two weeks. I was treated by two doctors without relief and they both said I would have to have an operation. I had my trouble four years and was unfit to do anything and had given up all hope of ever getting any better. I read about your medicine in the 'Primitive Baptist' paper and decided to try it. I have used Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Liver Pills for about seven months and now I am able to do my work. I shall never forget your medicine and you may publish this if you want to as it is true."—Mrs. J. F. Hyssey, Star, N. C.

Here is another woman who adds her testimony to the many whose letters we have already published, proving that Lydia E. Pinkham's Vegetable Compound can restore health to suffering women even after they have gone so far that an operation is deemed advisable. Therefore it will surely pay any woman who suffers from such ailments to try it.

## DON'T DESPAIR

## MACHINE TACTICS AGAINST NORRIS BILL CHARGED

Bi-Partisan Movement Gets Behind Administration Measure.

WASHINGTON, July 28.—A bi-partisan movement in the Senate yesterday got behind the administration measure for the creation of a transcontinental dirigible service was today by Major H. H. Arnold chief of the army air service for the Ninth Corps Area, Oakland, in an address before the club's regular weekly luncheon yesterday at the Hotel Oakland.

After reviewing the history of balloons and dirigibles flying Major Arnold told of the organization of a New York corporation which is now preparing to operate a transcontinental passenger service with a line of dirigibles connecting New York and San Francisco with feeder lines to New Orleans in the Mississippi Valley and other parts of the United States.

"This company is laying its plans on a firm business basis," said Arnold. "They have employed some of the leading dirigible engineers of the country and to work out the details of the project. These men will probably study and plan for another year and then, with the project complete in all essential details, will push work of putting their plans in practice."

SOME FLYING HISTORY.  
"In the same year that the French balloon was flown the French emperor sent up another balloon carrying a rocket and a small dirigible. This strange cargo drifted through the air for a mile and a half at an average height of over three miles, and when it came down showed that it had suffered no ill effects from the flight."

"It was not until about another hundred years later that a French inventor fitted a balloon with a propeller, driven by electric motor, and was able to travel fourteen miles an hour with it. Previous to that time men had tried to propel balloons with the aid of sails, which they employed to row them selves through the air in the same manner as one rows a rowboat."

PROGRESS RAPID.  
From the time the motor-driven propeller was applied to the balloon progress was made at a rapid pace," Arnold said. "Count von Zeppelin developed the rigid type of dirigible so that during the war the Germans

## Giant Dirigibles Coming To Coast, Lions Are Told

The story of development of lighter-than-air aviation from the first balloon made in 1783 and filled with hot air to the organization of a \$10,000,000 corporation in New York for the creation of a transcontinental dirigible service was today by Major H. H. Arnold chief of the army air service for the Ninth Corps Area, Oakland, in an address before the club's regular weekly luncheon yesterday at the Hotel Oakland.

After reviewing the history of balloons and dirigibles flying Major Arnold told of the organization of a New York corporation which is now preparing to operate a transcontinental passenger service with a line of dirigibles connecting New York and San Francisco with feeder lines to New Orleans in the Mississippi Valley and other parts of the United States.

"This company is laying its plans on a firm business basis," said Arnold. "They have employed some of the leading dirigible engineers of the country and to work out the details of the project. These men will probably study and plan for another year and then, with the project complete in all essential details, will push work of putting their plans in practice."

SOME FLYING HISTORY.  
"In the same year that the French balloon was flown the French emperor sent up another balloon carrying a rocket and a small dirigible. This strange cargo drifted through the air for a mile and a half at an average height of over three miles, and when it came down showed that it had suffered no ill effects from the flight."

"It was not until about another hundred years later that a French inventor fitted a balloon with a propeller, driven by electric motor, and was able to travel fourteen miles an hour with it. Previous to that time men had tried to propel balloons with the aid of sails, which they employed to row them selves through the air in the same manner as one rows a rowboat."

PROGRESS RAPID.  
From the time the motor-driven propeller was applied to the balloon progress was made at a rapid pace," Arnold said. "Count von Zeppelin developed the rigid type of dirigible so that during the war the Germans

despatched one of the Zeppelins from Bulgaria to German East Africa over uncharted airways. This Zeppelin went as far as Lake Victoria carrying a cargo of twenty tons of medical supplies when it received a wireless message to the effect that German East Africa had capitulated to the Allies. It then turned back and reached its base at a total flight of 5,500 miles, made in ninety-six hours. On its arrival at its base it still had gasoline enough left for another 2,700 miles."

Arnold told how a captive balloon was recently used in San Francisco to take a complete panoramic photograph of the San Francisco waterfront from Hunter's Point around to Fort Mason. As to the practicability of dirigibles for peaceful transportation, Arnold pointed out that in the years from 1910 to the outbreak of the war dirigible lines were used in Germany between the principal cities and into Switzerland and that though 174,000 passengers were carried there was not a single fatality.

DIRIGIBLES BOOSTED.  
In England dirigibles have also been used for passenger transportation, having covered thus far more than two and a half million miles with thirty-two fatalities. Some of these however were incurred with the rigid type dirigible which is the kind now being generally adopted.

"Most airplane accidents come from excesses of the hydrogen gas bags of which they are made. We in the United States are overcoming this difficulty now by using the inert gas helium which, though not quite as light as the hydrogen formerly used is not inflammable. A good commercial supply of this gas has been developed as a by-product at the Texas oil fields and the production of this gas now amounts to some 50,000 cubic feet a month."

Major Arnold gave figures on the Zeppelin, the largest existing dirigible recently turned over to the United States government by the British, which has fourteen separate gas bags, six Submarine engines, a cruising speed of sixty miles an hour, a capacity of two tons of freight, thirty tons of gasoline, which is enough for a 5,000-mile flight, a crew of twenty-five to thirty men and forty passengers. It is 685 feet long and holds 27,000,000 cubic feet of gas.

## Details of New Veteran Welfare Law Are Given

So many queries have come in following the publication of the veteran welfare story published in this column recently that the Information Bureau is giving THE TRIBUNE readers further information on the subject. The details of the question that came in were as to where application can be made for the loan. The Veterans Welfare Board has been organized to administer all soldier legislation passed at the last state legislature. By September 1 the Oakland Post of the American Legion, 308 Twelfth street, expects to have application blanks ready for those in need of the loan. The board provided in the land settlement law. Every former service man is eligible who "was, at the time of his enlistment or entry into the service, a resident of California or who is at the time of the effective date of this act a resident of the state of California."

## Captain Kidd Not Pirate And Treasure Myth, Claim

BOSTON, July 28.—Song and story are wrong. Captain Kidd was not a pirate and his fabled treasure does not exist. Privateersman he was, but of good repute. His hanging at a public execution on the Execution Dock at London in 1701 was to satisfy the political exigencies of the time.

These are the findings of John H. Edwards state archivist, in a lecture at the Old South Meeting house. Archivist Edwards was discussing "Lord Belmont and the Pirates of the Sea" at a lecture given by the governor of New England in 1895 with a special mission to suppress piracy.

Before leaving England, Edwards contended "he agreed with Captain William Kidd, a privateer man of good repute from New York, to proceed against pirates in a ship called the Adventure Galley, on a capture-no-pay basis. The adventure galley was a privateer ship. The venture included Captain Kidd, Robert Livingston Lord Chancellor Somers, the Earl of Oxford (first Lord of the Admiralty), the Earl of Romney and the Duke of Shrewsbury (Secretaries of State). Belmont and the straw men to whom the king's grant of treasure was later made, did not contribute a cent."

## Fight For Refund On Shingles Opened

SEATTLE, Wash., July 27.—Repatriation of \$50,000, on shipments of cedar shingles, was demanded yesterday at a hearing before the interstate commerce commission here. The Pacific coast shippers' association was complainant. The organization is petitioning for return of \$100,000 in shingles sent to Iowa, Illinois, Missouri and other points.

This proceeding marks the beginning of a fight by shippers to force the railroads to refund approximately \$3,000,000 exacted as demurrage charges for shipments, which were delayed. The shippers contend that the penalties were excessive and inequitable.

STRIKE IS LOST.  
PHILADELPHIA, July 28.—Electrical workers employed in the building trades here yesterday ended their strike and union officials ordered members said to number between 1,000 and 1,200 to work at 90 cents an hour. This is the schedule proposed by the Employers' Association and is a reduction from \$1.12.

**Cornerstone of U. S. Gift To Belgium Laid**  
LOUVAIN, Belgium, July 28.—(By the Associated Press.)—The cornerstone of the new library of the University of Louvain, planned as a gift of the American people to the people of Belgium, to replace the one destroyed by the Germans in 1914, was laid with elaborate ceremony here today.

The reading of a message from President Harding was a feature of the exercises. King Albert delivered an address, as did Cardinal Mercier, the Primate of Belgium, former President Poincaré of France and Premier DeWart of Belgium.

If you see it in The TRIBUNE tell you so

Delightful New Cream  
Containing  
Tartaric Acid  
Quickly Shows  
Decided  
Improvement  
in Every Case

The first application of Howard's Buttermilk Cream will astonish you. The dulcet, most lifeless complexion is turned to radiant beauty and the rough hands or arms made snowy white, yet there is not the slightest sign of its use. It actually vanishes from sight and the most heated atmosphere will not produce the least shininess or greasiness of the skin. No matter whether you are troubled with a poor complexion, wrinkles, puffiness around the eyes, or a face of lines around mouth, or just a simple roughness of the face hands or arms caused by wind or sun, you will find that these troubles will quickly disappear with the use of Howard's Buttermilk Cream.

To prove this to your complete satisfaction, get a package today at any first class drug or toilet goods counter. Insist on Howard's Buttermilk Cream, no other cream can take its place. If you cannot obtain, send 10 cents silver or stamps for generous trial package of Cream and Soap to Howard Bros. & Company, 457 Washington Street, Buffalo, N. Y. Owl Drug Co. can supply you—Advertisement.

**U. C. EXTENSION WORK BENEFITS 661,512 PERSONS**

Every County in State Except Alpine Represented Among Students.

BIRKBECKLEY, July 28.—University of California extension work came into educational contact with 661,512 persons during the past twelve months according to the annual report of President Raymond, which the university just made by Professor Leon J. Richardson, director of university extension at Berkeley.

The department of university work reached during the year ending June 30, 1921, 151,512 students in class and correspondence instruction, 190,000 students at lectures and 462,000 students at extension courses. The report also shows that the university through its extension work, has benefited 661,512 persons in the state by the department of visual instruction. This makes a total of 1,512,512 persons benefited by the university through its extension work and the people of the state.

INCREASE IS NOTABLE.

"That the extension division of the University of California is fulfilling an educational need among the people of California is attested by the constantly increasing number of citizens who take advantage of its facilities," says the report of Professor Richardson.

The increase over the figures for the year ending June, 1920, is notable, according to Professor Richardson's report.

There were 12,791 students enrolled in university extension classes during the preceding year, and 13,791 in the year just closed, an increase of more than 200. The ratio of increase is also shown in correspondence instruction. In 1919-1920, 35,312 were registered and in the past year 40,512.

S. P. COUNTY LEADS.

University extension through correspondence reaches all counties of the state but one, according to the report. There was no student registered from Alpine, but the 1032 were distributed among all the other counties and a considerable number were enrolled from points outside of California.

San Francisco county leads in correspondence enrollments with 490 students studying by mail, and Alameda is second with 430. Los Angeles county was third with 235.

ANTS IN SOUTH AMERICA are wonderfully industrious. They have been known to construct a tunnel no less than three miles in length.

**Governor Small Places Case in Lawyers' Hands**

Executive Is Located After Rumor That He Had Left Chicago.

CHICAGO, July 28.—Governor Len Small, under indictment for misappropriation of state interest funds, whose whereabouts were a mystery early today, was located in Chicago shortly before noon. He had spent the night at a downtown hotel.

It had been reported earlier that the governor had "left the city" without revealing his destination. Governor Small, it was learned today, had placed his case in the hands of a committee of five lawyers, who will handle all angles of the litigation. He was in conference today with his attorneys and political advisers.

NEW YORK, July 28.—Because she laid 75 eggs from which 75 little reptiles may be hatched, a place in the Bronx Zoo is waiting for a huge reticulated python now on an animal ship just arrived at San Francisco from Singapore. Raymond L. Diers, curator of reptiles at the Zoo, is trying to buy the huge snake. The reticulated python attains a length of thirty feet.

**Idaho Governor Saves Game Warden's Life**

BOISE, Idaho, July 28.—How Governor Davis of Idaho stripped to his undergarments and J. N. Apper, deputy game warden, did not be a game warden's camp to inspect fish planting operations at the lake.

He whose mind is rich in the memory of moral victories will not easily believe the world a scene of moral defeats.

**The Effects of Opiates.**

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of doing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly deprecated, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

## Views of Professor Gray Are Challenged by Women

When Austin K. Gray, professor of literature and English language in the University of California, summer session, included his academic mind toward the large theme of "Woman," and pronounced some pithy phrases which sounded wise in class, he quite overlooked the women of the modern era. For here they come, a brilliant coterie, to break down the professor's philosophy.

They do not agree with Professor Gray. They never would agree with Professor Gray. But they agree among themselves that Professor Gray is quite typically masculine, and has made a tremendous mistake in his scholarly views. Mrs. Hoyt, a woman of letters, and a member of the session class that "women are making themselves slaves by striving after the ideas and forms of men." Did he not declare that "man has always been the slave of woman, who in the Grecian ages was free?" Did he not give utterance to this?

**NOW MAN'S EQUAL.**  
"Now that she is refusing to remain the delicate, protected flower, but is entering politics and business, she can no longer expect the spirit of protection and homage formerly shown by the men, but as she becomes man's equal, he will fight her as an equal."

Moreover, by establishing herself in business, woman is not freeing herself from the terror of unhappy marriages, but is merely sacrificing diamonds.

New ideals of marital happiness, new foundations for the family life, a larger opportunity for children's development, a deeper regard and homage for women—these are some of the fruits which local women leaders find in the modern movement toward complete emancipation of their sex. In their retort to Professor Gray they even discover the solution of the divorce evil.

**PEACE IN THE HOME.**  
The present rush of women into public and economic life is the feminine revolt against past ages of oppression and masculine superiority, according to Mrs. Helen Poyer, director of the State Employment Bureau in Oakland. In its power she beholds the final correction of the divorce evil, the ultimate standard for permanent marital happiness and the foundation of the ideal home.

"There is even yet a type of woman who will submit to any form of degradation for the sake of pretty clothes, jewels, sedans, servants. She will not work yet she hardly gives the suggestion of a delicate, protected flower. She is more than eager to live in her home and be saved from the soil of work. Men, as well as women, call her parasite."

The modern worthwhile man respects woman as his equal.  
"It is human nature to dominate where one can. When woman had no economic outlet she was forced to be quiet and to be dominated. She remained so because she could do as she pleased. When opportunity of self-expression came her way, it was the signal for what might be termed the 'feminine revolt' against all these things which Professor Gray has found so worthy of praise."

**BETTER TREATMENT.**  
"Gradually as she found her independence she demanded better treatment. To be divorced a few years ago was considered the worst disgrace in a world to a woman. Today the modern woman is regarding divorce as the most wonderful thing that has come her way. Eventually as men realize that if a wife is not treated as an equal, she will not submit, the whole evil of the divorce problem will naturally and of itself find correction. Permanent happiness of men and women with an ideal home founded upon this basis cannot help but result."

"Economic and political independence for women is the most constructive gift this generation has made to the world. Men must give their comrades who can speak honestly with them, homage and admiration."

**WOMAN A COMRADE.**  
"The woman of today is more a comrade to a man than an object to be worshipped. The 'clinging vine' type of woman has been as completely outgrown by men as by women."

"Man, perhaps has enjoyed his feeling of superiority and not yet quite reached the point to be willing to acknowledge woman's equality," Mrs. Friend concluded.

She added that the opinion of Professor Gray was largely unaccepted and agreed in by many men.

Mrs. Albert B. Carter, leader in civic and culture clubs, refuses to comment directly on Professor Gray's lecture. She offered a brief postscript. Said Mrs. Carter:

"I did not live in Grecian ages. I can only recall my mother's and grandmother's times. I cannot find many laws or statutes books for the protection of women generally until women began to write them, for

themselves by the power of the ballot. If the woman of 'yesteryear' was so free and powerful, it would seem strange that she did not give a more flattering attention to herself."

**HOMAGE OF MEN.**  
"The homage which a man offers a woman in any age depends entirely upon the man. The woman in her home, in public life or in business and professions will receive that homage and protection from men that she demands."

Woman is man's good angel yet, according to Mrs. Carrie L. Hoyt, acknowledged political leader and wife of Berkeley. Mrs. Hoyt maintains that whenever woman

wields her power over man, she wields it for his general good, whether in years, B. C. or A. D.  
"One sex is as free as the other," Mrs. Hoyt challenges Professor Gray. "It is ridiculous to say otherwise. They should be and are equal." Mrs. Hoyt resented particularly the alleged charges of the university professor that woman is making herself a slave by striving after the ideas and forms of men and that only in the Grecian age had she been free, the man her slave.

## New Federal Head For Narcotic Squad

SAN FRANCISCO, July 28.—Hardy D. Smith, former chief of the narcotics squad of the federal prohibition agent's office, has been put independently in charge of federal narcotic work on the Pacific coast. His title will be that of narcotics division chief.

## WET PAVEMENT CAUSES CARS TO TODDLE; SMASH

A new automobile recently purchased by Frank Colbourn, commissioner of public health and safety, and a somewhat older one owned by the Mori florist company, 1510 Clay street, are both in the garage undergoing minor repairs as the result of a collision between the two cars at Thirteenth and Franklin streets today.

## Eastbay Advantages Recited By Speaker

Clifford A. Williams, former chief executive of the Walter M. Murphy company, distributors of Lincoln motors, and now general manager of the Tunison Motor company, Oakland, was accorded a reception in the West room of the Hotel Oakland at a luncheon given by the Eastbay Board of Trade yesterday.

L. B. Magoon was chairman of a meeting that followed the luncheon, and Williams made a brief address pointing out his reasons for coming to Oakland. The city being a direct terminal for several trans-oceanic lines.

## Filipino Beauty Is Here From Orient

SAN FRANCISCO, July 28.—Among the arrivals on the Trigo Maru yesterday was Miss Carmen Prieto, said to be one of the most beautiful women in the Philippine Islands. Recently she was queen of a beauty contest in Manila. She is on her way to Europe to complete her education. It is reported that there were also twenty Japanese brides on board the Trigo Maru accompanied by their husbands.

## Elks Will Conduct Funeral of Neilsens

ALAMEDA, July 28.—Public funeral services over the remains of Henry A. Neilsen and his wife Anna, killed in an auto accident Sunday, will be held in the Elks clubhouse at 8 o'clock this evening. The ceremony over Neilsen will be that of the Elks ritual, conducted by the officers of the lodge. The Rev. Henry H. Shires will deliver the sermon over the body of Mrs. Neilsen. The Elks officers officiating will be William Varcoe, exalted ruler, G. W. Hall, esteemed leading knight, Homer B. Spence, esteemed loyal knight, H. D. Maynard, esteemed lecturer, Elmer C. Dick, chaplain, and Dr. W. F. Wullemin, eulogist. The eulogy over Neilsen will be delivered by Past Exalted Ruler C. H. Moody.

## BUSINESS CLUB HEARS ADDRESS ON 'ADVERTISING'

Every Individual Must "Sell"  
Himself in Some Way,  
Says Expert.

Advertising, its faults, its merits and compensations, were discussed by Coleman Cox, a veteran advertising man of San Francisco, before members of the Progressive Business Club at their luncheon yesterday at the Hotel Oakland. The speaker analyzed his subject in detail and told of the difference between right and wrong advertising.

"Advertising is nothing more than the doctrine how can I reach the most people in the best way at a better time for the least amount of money," Cox declared. "I look upon everyone as a salesman, no matter what occupation or profession, and it is so. Everyone is a salesman and an advertiser, and whether or not they can sell themselves successfully depends their success in business and in life."

"Unless a man is sold well on his country, his race, his business, his town and the side of the street his business is located on, he does not amount to a hang. Successful men who have started with nothing and have risen to the top, attained such heights because they have been able to sell themselves through personal advertising. Men who have fallen by the wayside are examples of the ones who were unable to further their own interests through self-advertising and salesmanship."

"There are many different ways of advertising," Cox continued. "But no matter what the method is, we all should do it. A professional man, such as a doctor or a lawyer, advertises himself by his associations and his appearance."

"There is only one field of advertising open to him," concluded the speaker. "Every phase of advertising in the world has its use and where it will apply to one will apply to another."

## Be Careful What You Wash Your Hair With

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconut oil shampoo or this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get Mulsified at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure your drug-gist gives you Mulsified.—Advertisement.

If you see it in The TRIBUNE tell them so.

## S. F. Builders' Exchange Heads Face Trial Monday

SAN FRANCISCO, July 28.—Preliminary hearing of Charles W. Gompertz, president of the Builders' Exchange, and W. H. George, chairman of the conference committee of the organization, on charges of violation of the Cartwright law for conspiracy in restraint of trade, will be held Monday, August 1. It was decided by Police Judge Sylvester McAtee, after hearing arguments of both prosecution and defense, that there were no grounds for a demurrer.

In his stand to force the two defendants to submit to a hearing, Judge McAtee said in part:

"I do not want to appear discourteous to counsel, and appear not to be giving full enough consideration to the arguments. It was not my intention to pass on this matter today, but it seems to me there has nothing come up today which has changed the situation materially since the last time I was left off."

**QUIT NOT PROVED.**

"These facts alone, if proved, do not of themselves constitute a violation of the Cartwright act. The district attorney must go further and show that these acts were committed and that combinations effected in order to accomplish one of the purposes prohibited by the law, namely, that they had for their purpose to create or carry out restrictions in trade or commerce or to limit or reduce production, or increase or reduce the price of merchandise or of any commodity, or to prevent competition in manufacturing, making, transportation, sale or purchase of merchandise, produce, or any commodity or to accomplish any one of the other purposes prohibited by the law."

The complaint itself, in my opinion, states what are alleged to be facts, which might, although it has not been shown and cannot be shown without evidence, constitute a public offense; and therefore, I take it this court must hear the evidence and determine whether, actually the facts alleged in the complaint, if proved, do constitute a public offense. For that reason I will deny the motion to dismiss, and overrule the demurrer."

**TEST CASES.**

Gompertz and George were charged with conspiracy in restraint of trade by Henry S. Nelson, a contractor, the complaints witness, who declares that the two accused refused him the right to purchase building materials until he had discharged his union employees and pledged himself to open shop regulations.

Unusual interest is attached to the hearing as conviction of the two officials of the Builders' Exchange will be followed by arrest of fifty or more builders associated with the Exchange on similar charges.

Assistant District Attorneys Milton U'Ren, Arthur Jones and I. M. Golden appeared for the prosecution, while John S. Partridge acted as counsel for defense.

## ATTENDANCE AT EPWORTH MEET REPORTED LARGE

Sessions of Pacific Conference  
Opened At Mount  
Hermon.

The second annual institute of Pacific Conference, Epworth League of the Methodist Episcopal church, South, is in session at Mount Hermon in the Santa Cruz mountains. The registration is the largest ever made, and there are twice as many people present as ever gathered at a previous gathering.

Members are in attendance from leagues as far south as Kingsburg, and as far north as Willows and Colusa. Faculty members have come from Nashville, Tenn.; Spochow, China; Brazil and Oklahoma. Bishop D. B. Rose, world president of the Epworth League, will preach the morning sermon on Sunday. Stockton leaguers are in evidence with a membership of eighteen. San Jose with an attendance of twenty-three carries off the banner for the largest representation. There are fourteen present from Oakland.

Monday afternoon was spent in getting acquainted with the grounds and in the evening the annual roll call was made. Tuesday morning Rev. J. A. B. Fry, pastor of the Stockton church, and a former pastor of Epworth church, Berkeley, had charge of the morning watch service. During the morning, classes in home and foreign missions are being held, and classes for studying Epworth League methods. The afternoon are being spent in recreation, and the evenings with great platform meetings.

## Ebert To Tell of Dry Enforcement

Captain F. B. Ebert, assistant general counsel of the Anti-Saloon League of America; Mrs. Anna Saylor, assemblywoman, Mrs. Annie Latta Barry, Y. W. C. A.; Mrs. Anna Marden de Yo, Women's Legislative Council, will be the speakers before a conference arranged by Alameda County Woman's Christian Temperance Union at Hotel Oakland tomorrow at 2:30 p. m. The program will be a preliminary to the National Convention of the temperance body, which will be held in San Francisco next month.

Captain Ebert will discuss the enforcement legislation now before Congress.

## Elks' Drill Team To Give Dance Series

Arrangements have been completed for the informal dance to be given by the drill team of Oakland lodge of Elks at the Auditorium ball room tomorrow evening. The drill team has prepared a busy schedule for the coming months. This dance is to be the first of the series which will find its close when the organization journeys to Santa Cruz to compete in the tournament to be held at the annual state convention of the Elks.

## Woman, 97, Veteran Of Rebekahs, Dies

Mrs. Harriet Earl, 97 years old and a veteran member of the Rebekahs, died yesterday at the residence of her son, Dr. George W. Earl, 2109 Twenty-fourth avenue. Although bedridden at the time of the last presidential election, Mrs. Earl insisted upon registering, that she might cast her ballot for President Harding. She came to California, 25 years ago. She was born in Liverpool, N. Y.

For 55 years Mrs. Earl has been a member of the Rebekah order. She was also connected with the Eastern Star. Dr. Earl is the only surviving son.

## G. O. P. To Lay Plans At White House Meet

WASHINGTON, July 28.—Another White House dinner conference will be held tonight between President Harding and about a dozen republican leaders in the house, in furtherance of the legislative program understood to have been agreed upon by Senate republicans. The conference will be held Tuesday night. Definite arrangement of the house program to fit in with the administration plan, especially as to passage of the tax revenue bill, was expected to result from the conference.

## War Agreed Upon If Emperor Returns

VIENNA, July 28.—A treaty providing for a declaration of war on Hungary in the event Emperor Charles returns to the Hungarian throne, has been signed by Roumanian, Jugoslavian, and Czechoslovakian, according to dispatches from Belgrade reaching here today.

## Pioneer of Alameda County Is Called

J. P. Hardin, for a quarter of a century a resident of Alameda county, died at Deer Lick Springs, Trinity county, this week, according to word reaching the bay cities. Hardin was 67 years old. With his daughter, Miss Mabel Hardin, he went to Trinity county several weeks ago, hoping to recover his broken health. Hardin was born in Texas, and has been engaged in the real estate and insurance business. The family home is at 1827 Euclid avenue, Alameda.

Besides his widow, Hardin is survived by five children—Mabel, Anderson F., John M., Sam H., and Irving B. Hardin.

## Wrecked Ship's Crew Reaches New York

NEW YORK, July 28.—Captain Ross and twenty-three of the crew of the Norwegian auxiliary schooner General Pershing, previously reported wrecked on Endymion Reef, near Turks Island, arrived here today on the steamer Huron.

The schooner, which was 1346 tons net, was bound from Norfolk for Seattle with a cargo of coal and is said to be a total loss.

## Former Manager of Kid McCoy Dies

CINCINNATI, July 28.—Frank W. Kelly, 51, sportsman and politician, was found dead yesterday in his inn at Plainville, Ohio. Heart disease had been the cause, it was said.

Kelly for years was manager of Norman Selby (Kid McCoy). He also managed "Denver Ed" Smith, at one time contender for the heavyweight title.

## TAX BILL GETS RIGHT OF WAY OVER TARIFF ACT

President and Advisers Arrange Legislative Program At Dinner Party.

WASHINGTON, July 25.—Legislative programs in the Senate and House were fairly well outlined yesterday, following conferences between President Harding and a number of Republican Senators at a White House dinner.

Administration plans, as disclosed by Senators, call for passage by the House of the internal revenue revision bill and of several Senate bills by August 6, with a view to passage by adjournment of Congress soon after, until late in September or early in October.

Probably the most important feature disclosed was the President's desire to have the tax bill enacted before the Fordney tariff measure. Senate leaders urged this change. It was said, and now plan to hold the tariff bill in the Finance Committee until after the tax measure passes.

The program was said to leave the tariff bill subject to indefinite delay, possibly until the winter session, although some Senate leaders reiterated that it would be enacted in this session.

### REFUNDING LOANS.

Other features of the reported program proposed delay on the administration bill for refunding allied loans and for funding railroad debts. Senate bills related for passage before a recess are the agricultural credits measure, the Willis-Campbell anti-bear bill, the Copper-Donohoe bill to regulate future trading in grain, and possibly the Borah bill to restore free tolls to American coastwise vessels using the Panama canal.

It was said "no hint" had been agreed upon by the President and the fourteen Senators who met at the dinner, which was held under arrangements for secrecy ordered by Harding.

### DINNER TONIGHT.

In furtherance of the Administration plans, the President tonight will have a dinner conference with about a dozen House Republican leaders. The Senate Republican leaders also will meet tomorrow.

President Harding told the senators, it was said, that he was assured by House leaders of speedy passage of the tax revision bill. It is planned to incorporate tax changes recommended by the Treasury Department and rush the bill through, leaving most other revision to the Senate.

The Senate finance committee then is to work on the bill during the proposed adjournment period.

The President, it was said, expressed opposition to any recess or adjournment of either Senate or House until the latter passes the tax bill.

## HARDING PROVIDES U. S. BUYING HEAD

WASHINGTON, July 25.—An executive order to co-ordinate purchasing for the army, navy and shipping board, and to permit transfers of surplus supplies from one Government agency to another, was signed yesterday by President Harding. Directed by the budget bureau, the order originated the order which divides the country into zones corresponding to army corps areas for supply purchasing with a general purchasing agent for each area, all working under a purchasing supervisor in Washington.

General Daves said the order must not create the impression that the War and Navy departments being placed in control of the budget organization.

In each of the nine areas the order provided for the selection of an official known as a "co-ordinator." They are to serve under a chief co-ordinator general supply at Washington.

The co-ordinator will have charge of sales of surplus Government property in their areas as well as exercise supervision over the purchase functions of the several departments and establishments.

### Oakland Firm Bids Low On Auto Plates

SACRAMENTO, July 25.—The Shartzer Illuminating & License company of Oakland submitted the lowest bid for manufacturing 1924 license plates for the State Motor Vehicle Department, and will in all probability be awarded the contract. The only element to be considered now in awarding the contract is that of time, and if the Oakland concern can meet requirements in this respect, it will be accorded the contract to furnish 600,000 plates. The bids follow:

Shartzer Illuminating & License Plate company, Oakland, 11 1/2 cents per pair; Kittle Manufacturing company, Los Angeles, 13 1/2 cents; B. W. Norton, Oakland, 14 1/2 cents; and Moise-Klinkner company, San Francisco, 15 1/2 cents.

### Bankers Will See Behind Movie Scenes

LOS ANGELES, July 25.—Sight-seeing tours through some of Southern California's big motion picture plants are on the entertainment program of the 1924 convention of the American Bankers Association here October 3 to 7.

Delegates, at one studio, will see a typical motion picture set built on a large platform and will hear a lecturer tell in detail how the motion picture set is made. Later, at the same place, the bankers will inspect a Mexican "movie" street, at the end of which there will be a real Spanish barbeque awaiting the delegates. Motion pictures will be taken of the party.

A moonlight tour is planned to another motion picture city, at which the bankers will visit the Monte Carlo of the films, a city built to resemble, on the surface at least, the famous European resort.

SELL CHURCH FOR \$25. WINCHESTER, N. H., July 25.—The Old Free Will Baptist church was sold at public auction by a receiver for \$25. The auction is said to be without precedent in the state. The church was used for more than a century.

### THE BEAUTIFUL WOMEN OF HISTORY

Gave Much Time To The Improvement Of Their Complexion

It is said that the most beautiful women of history are the ones that spent most of their time in the cultivation, improvement and prolongation of the life of their beauty. They used all safe means they could find to accomplish this aim.

Black and White Beauty Bleach will remove skin blemishes, such as sun and wind freckles, blotches, liver spots. It will clear your complexion—make your skin soft and youthful.

Black and White Bleach is a delightfully perfumed, pink-tinted cold cream compound, approved and used by particular women. It will not grow hair on the face, and when applied forms an invisible coating on the skin.

Black and White Soap should always be used with Black and White Beauty Bleach. Its regular use will keep the skin in perfect condition.

Clip and mail this advertisement to Black and White, 1507, Memphis, Tenn., for free literature, samples of Black and White Face Powder and Incense of Flowers Talcum Powder.

## THEATER

### FULTON

Maude Fulton's season in her own playhouse, the Fulton, will come to an end next week with a production of "Daddies," by special arrangement with David Belasco, beginning at the Sunday matinee. Maude Fulton will play the role of the French maid, the role of the French maid, the role of the French maid.

The Fulton management announces that Harland Tucker, the Morisco juvenile star, is to appear in a production of "Turn to the Right," directly following the close of Miss Fulton's season in "Daddies."

### AMERICAN

"Snow Blind," Katherine Newlin Burt's story of the great outdoors and the wilds of the frozen north, is the feature of the double bill at the American. On the same bill is "The American," the story of the American.

"Snow Blind" is the second film story of the author of "The Branding Iron," the story of the American.

### T. & D.

Few programs of equal entertaining qualities have been seen at the T. & D. theater than the current bill, which is offering two headliners in Charles Ray as the star in "The Old Swimming Hole" and Pauline Frederick in "Salvage." In addition, Miss Veta Lee is providing a delightful singing number: Forman's big orchestra is heard in concert, the Elks big convention at Los Angeles is shown, and Charles Wilson's organ recitals are gaining in favor.

"The Old Swimming Hole" and "Salvage" will be seen for the last time Saturday night, to be followed Sunday by the Thomas H. Ince production, "Mother of Mine," and Jane Novak in "The Golden Trail."

### KINEMA

"Buried Treasure," the story of a Wall Street pirate's daughter's search for romance and her scheme for uncovering a chest of pirate gold, completes its week's run at the Kinema theater Friday night.

Partly Arduable's latest, "Crazy to Marry," with Bill Montana playing the part of the chief assistant fun-maker, follows on Saturday.

"Buried Treasure" heads a bill including the second in the remarkable series of African jungle expeditions taken by Dr. John Leonard Vandenberg, the Oakland priest and nationally known explorer.

Prince Lei Lani, with his troupe of Hawaiian singers and dancers, held for a second week, are appearing in a new act which Lei Lani has called an Incident of the Islands—the Beach Comber.

### PANTAGES

Alexander Pantages promises to reveal a work of art in "A Japanese Romance," the picture of next week's vaudeville bill. The principals are Nace Murray, Carl Bval, Sallie Keith and George, and an even dozen chorus girls assist in such special numbers as "When We Drink Our Morning Coffee," "When Love Comes to Stay," "My Six Little Girls," etc.

An additional headliner will be Little Ruby, the famous blues singer from California, offering a program of popular and semi-classical numbers on the bill.

Other acts on next week's bill will be Anita, Arliss, and her Winter Garden Girls, and the International Revue, "The International Revue," Hayes and Lloyd in a comedy sketch entitled, "Before and After," and Amoré and Obey, Parisian acrobats.

### BROADWAY

"Home Talent," latest of Black Swan's comedies and starring the chief of his funmakers, Ben Turpin, Charlie Murray and Phyllis Haver, begins a two-day presentation at the New Broadway theater today.

If a Bennett comedy can lay claim to the title of "Home Talent," it deserves that paradoxical rank. Opening with scenes in a boarding house where a group of actors are attempting to frame a new act, the action reverts to the gladiatorial days in Rome with the same characters amid the settings of those days.

"The Man Tamer" is on the same program.

### Attorney Warns On Water Power Act

SACRAMENTO, July 28.—The proposed constitutional amendment to be known as the California Water and Power Act would not carry

in effect the provisions of the John hydro-electric bill, which was smothered in committee at the last session of the legislature and would rob the municipalities of California of the right to initiate power projects, it was declared in a statement prepared yesterday by City At-

torney Robert L. Shinn, following announcement made Tuesday that an initiative campaign would be launched to place the amendment on the ballot.

Shinn estimated in the statement that the movement is one launched by the public utilities to kill the Johnson bill, and declares he is suspicious of the whole program.

It is declared that the proposed amendment would in effect socialize water and power development in California by placing it under the control of a commission.

LACK OF MOTHERS. LONDON, July 28.—"What is wrong with Methodism is the want of Christian mothers," declared a speaker at the primitive Methodist conference at Sheffield. "Let us be honest," he added. "We are not growing Methodists. Don't you know that it is the fashion today to limit families?"

560-564 14th Street Near Clay

MISSIE'S GENUINE

# ACTIVITIES OF WOMEN

## Captain Percy Weds Widow Of Officer

Word has just been received of the marriage of Captain Ernest Ransom Percy, son of Mrs. George W. Percy of Santa Rosa avenue, and Mrs. Sophie Hendrix Chamberlin of Toronto, Canada.

The ceremony was performed at the home of the bride, who is the widow of Major Chamberlin of the Marine Corps, who passed away at Washington as a result of illness contracted during wartime service at Vladivostok.

Captain Percy was born in Oakland, where his family has played a conspicuous part in the social, civic and athletic life of the community. His father was an architect of high standing in the profession, his mother a leader in the Elbell Club and in all the activities of the community. His service to the service of the nation during the war. And his sister, Mrs. Isabelle Percy West, wife of George P. West, the well-known women painter of California, with creditable work exhibited not only in the West but in New York and Europe.

Captain Percy, said to be one of the handsomest officers in his regiment, was educated at Phillips Exeter Academy and at the University of California, winning a commission in the regular army at the beginning of the war.

He served as captain in the 31st Infantry in Siberia, where his company took part in the engagement at Suchan Mines. Here he commanded the legion guard at Harbin when the outpost was a far-east storm center. He is now attached to the 52d Infantry, stationed at Camp Grant, Ill.

The gallant young officer and his bride are now on their nuptial journey, that will terminate with a visit in Portland, Maine, with Mrs. Charles O. Harmon, aunt of the officer. As Mrs. George Percy is visiting her sister, the bride will be presented to her in-laws at the beginning of August at the Maine home.

Renewing associations of their school days in the Holy Names convent, whose gardens, in the olden days, ran down to the lake, Mrs. Homer Clark Poundstone—Eileen Bon—brought together a group of friends this afternoon in honor of Mrs. William Sampson—Louise Ellis—when they were the solemn uniforms and the characteristic collars of their conventual student days.

The honor guest was a Nevada girl, whose marriage to a New York man established her in the east. But always there is the hunger for the west, with its blue skies, open places and old friends.

So the young matron is back again, where happy memories cling, to tarry a while.

The Poundstones are occupying the interesting home of the Robert Knights during their absence abroad—the scene of today's little party.

The gallant navy man and his wife have but recently returned from a diverting visit to Carmel and Monterey, favorite country for service folk.

TO RETURN AT WEEK'S END.

Mr. and Mrs. Lloyd Roberts—Frances Redman—are looked for at the week-end, eager to return to complete the equipment of their home on the lake.

The picture the Piedmont girl presented as she entered the church on Friday night, will live long in the memories of the men and women who assembled to see her given into

MRS. O. E. ELLINGHOUSE "concentrating" on the little white ball at Sequoyah Country Club. (Oakland Art Studio)

the keeping of the good-looking young Oakland man.

A flock of affairs are awaiting the return of the bride, who—being wise in her generation—begged the indulgence of her friends, who wanted to do things for her, to wait until after the ceremony. And being good friends, they saw the wisdom of the suggestion.

IN HONOR OF ARMY GIRL.

Alcatraz Island will be gayer today than its wont—the gray old island is to be the rendezvous of a gay group of girls from town, the guests of Miss Sue McDonald, in honor of Miss Marjorie Wright, daughter of General and Mrs. William Mason Wright, the new occupants of the official residence at Fort Mason.

General Wright, as everybody in the service, and nearly everybody out of it, already knows, is the new commander of the Ninth Area of the Western Division of the Army. And, incidentally, already established in the esteem of the posts hereabouts.

Miss Wright is the first girl to live up the headquarters in the gardens over the bluffs for some time.

Miss Wright was the guest of honor on Tuesday at luncheon, whereat Miss Margaret Knight, daughter of Colonel and Mrs. John Knight, was hostess.

ON THE RUSSIAN RIVER BANKS.

Mrs. Samuel Thornton was hostess at her home at Monte Rio a few

days ago, at a luncheon, honoring Mrs. John Cox, a recent bride. Twenty guests were assembled at the summer home, bridge following the luncheon hour.

Among the Eastbay folk at Yosemite are the Misses Helen Troy and Helen Knight, both former University of California students—both interesting young women, who are getting the most of their trail trips and valley hikes.

Dr. and Mrs. J. H. Rothberg and their family are spending the end of the month in the valley.

SUB-DEBS HOLD COURT AT "ARMY."

Miss Joan Howard, the sub-deb daughter of the Florence P. Howards, was the week-end guest of Miss Barbara Kimball, young daughter of the Frederick Kimball of Palo Alto. And the presence of the clever little San Franciscan was the inspiration for a dance at the Kimball home, to which a group of Peninsula girls and men were asked.

Miss Howard, who finished her school work in the East last year, will wander back to get her degree.

Vaudeville Team

Raided By Cupid

The vaudeville team of the "Four Renes" which has been billed everywhere as "four talented girls in songs and dances of different countries, all in costumes typical of the countries," will have to change their billing to the "Three Renes," unless they can find another Rene somewhere.

For Adelaide Hope Rene, one of the team, was yesterday married in San Francisco to Rudolph Silva, son of a leading merchant of Honolulu and a graduate of St. Mary's college here and has just been given up the stage to preside over the home of her husband in Honolulu. They sailed on the liner Matul shortly after the ceremony.

The couple was shunning publicity when the two appeared for a marriage license, but Grant L. Munson, marriage license clerk, recognized the young bride-to-be as Adelaide Rene, a member of the vaudeville team with which she traveled several years.

At first both of them gave their temporary address as Palace hotel, but were prevailed on to give their real addresses by Munson. Miss Rene gave hers as Hollywood and Silva his as Honolulu.

Silva is the son of A. G. Silva, of Honolulu, who, after graduating from St. Mary's college here studied in an Eastern university.

German Soldiers

And Police Battle

BY INTERVIEW WITH NEWS SERVICE.

LEAST WIRE TO TRIBUNE.

STETTIN, Germany, July 28.—

Fourteen casualties resulted when fighting broke out here today between Reichswehr and municipal police.

Reinforcements were rushed to the scene and order was restored.

A number of soldiers had gathered in a park and were creating a disturbance. They refused to obey the police order to disperse. When the police opened fire several of the ringleaders of the soldiers began firing.

Woman Acquitted

On Murder Charge

LOS ANGELES, July 28.—After deliberating for an hour and fifteen minutes a jury of five men and seven women found Mrs. Edith Lundberg not guilty of the murder of her sweetheart, Linas E. Worden, Jr.

Mrs. Lundberg's defense was temporary insanity. Her case was handled by the public defender's office. She did not appear to be moved by the verdict, which was returned last evening, and left the crowded courtroom quietly with relatives.

House Decides On

500 Millions Tax Cut

WASHINGTON, July 28 (United Press).—Republican leaders of the House have virtually decided to reduce taxes so that the total yield will be about \$500,000,000 less than the treasury department estimates will be necessary to run the government during the present fiscal year.

The object of this reduction is to force the most drastic economy in governmental expenditures.

We believe it will pay you to cross the bay Friday and take advantage of the lowered prices offered for our Big July End-of-the-Month Sale

## The White House

Closes at 1 P. M. Saturday

Mail Orders carefully filled

## July's End-of-the-Month Sale

Offering thrifty buyers a chance to get quality goods for less

Spring Suits

## Seven Killed In Aero Wagon Trial

BRIGA, July 28.—(By the Associated Press.)—Five delegates to the third internationale and two other persons were killed in a trial, July

24, of a big "aero wagon" on the Kursk road, according to the Bolshevik Rosta News Agency. The "aero wagon" is presumed in Riga to be some new invention. It is not described by the telegram. The delegates killed were Strunat and Gelbric of Germany, Hewalt of Eng-

land and Constantinoff of Bulgaria and Premak of Austria. The others killed were the inventor and engineer of the machine, Adamoffsky and one Russian official. Let us make happy the circle around us; be useful as much as we may.

## Autoist Repairing Tail-Light Injured

HAYWARD, July 28.—G. B. Prentice of Walnut avenue, Fresno, was severely injured last night in an automobile accident which occurred on the Foothill boulevard west of

Hayward. Prentice, accompanied by his wife and child and a friend, was on his way to visit in Oakland when he stopped his car to repair a tail light. The machine was half on and half off the road. An automobile driven by E. G. Fisher, 1350 East Thirtieth street, Oakland, crashed into the stationary

machine, smashing it badly and severely injuring Prentice. The other occupants of Prentice's machine were badly shaken up and frightened but were not injured. Fisher took Prentice to the county hospital in his car where it was found that he had sustained a broken arm, lacerations and bruises.

## SUSPECT FLEES CAFETERIA WHEN WOMAN ACCUSES

Seeing a man in an O'Farrell street cafeteria who, she believed,

was the same who held her up in Golden Gate Park last Sunday. Miss Alice Rice of the Whitecomb Hotel, last night telephoned to James O'Neill, 1483 Leavenworth street, who was with her Sunday at the time of the holdup. A chase followed, in which several officers participated.

# MILLIONS OF RUSS ARE MENACED BY DROUGHT, DISEASE

Many Flee From Stricken Regions; Hundred Slain, 1500 Hurt in Riot

By ED L. KEEN, United Press Staff Correspondent.

LONDON, July 28.—Famine and riot spread over Russia today holding a threat of a greater death toll than resulted from that country's part in the war and her revolutions. More than 10,000,000 men, women and children were suffering from drought.

Staggering caravans, setting out from the Volga region in search of food, stripped the country as they went. Cavalry horses, fire horses and cart horses disappeared as the miserable refugees passed by.

In cities rations were cut. Leon Trotsky, the food dictator, reduced army supplies.

**HUNDRED KILLED IN PETROGRAD FOOD RIOT.**

In Petrograd two regiments revolted because of the food cut. Citizens there started a demonstration against the rationing, and 100 of them being killed and 1500 wounded.

The famine situation was complicated by the almost complete breakdown in transportation. With fair supplies of food in some sections, notably the Ukraine regions, authorities were unable to distribute it.

The great famine region represents one-twentieth of Russia's territory, but is a region that ordinarily supplies one-half the country's food stocks.

By FRANK E. MASON, International News Service Staff Correspondent.

BERLIN, July 28.—Rats, field mice and bark of trees are delicacies for the thousands of Russian peasants who are fleeing from the famine and death in the rural districts of Russia, according to accounts received here today from Russia.

Despatch to the Clerical newspaper, Germania, says that a huge caravan of peasants has passed Moscow en route for Germany.

The famine in the Volga region (the biggest agricultural district of the country) last month has steadily grown worse, said a despatch from Moscow to the Morgenpost.

Official figures of the Russian commissariat of health show 13,478 cholera cases since the beginning of the year, of which 11,234 occurred in June.

By INTERNATIONAL NEWS SERVICE LEADER, THE TRIBUNE.

LONDON, July 28.—Press reports of famine conditions in Russia have been greatly exaggerated, Premier Lloyd George stated in the House of Commons today in reply to inquiries from members. The British government, he added, has received no request for assistance.

**Pool, Cards Banned In New Club House**

TURLOCK, July 28.—Nothing more exciting than chess, checkers and jackstraws will be allowed in the new recreation house at Don Pedro dam, where hundreds of men will soon be employed, and where a small army is already at work. Pool and cards are banned. The Turlock and the Modesto irrigation boards met in joint session today and put their feet down on pool and cards. The recreation house will contain a branch of the county library and other instructive and educational features. Moving pictures will be shown occasionally.

**Worker Badly Hurt In Tank Explosion**

MARTINEZ, July 28.—Albert Coluccetti, 35, of 1215 Franklin street, was badly injured today in an explosion at the plant of the General Chemical Company at Nichols. Coluccetti was working in a tank when gas in the receptacle exploded in some unaccountable manner. Coluccetti was hurled with terrific force from the tank and against a pole 12 feet away. According to word received here, San Francisco surgeons are of the belief that the man's back may be broken.

**Liquor, Narcotics Sold To Soldiers**

WASHINGTON, July 28.—The Johnson City, Tenn., old soldiers home was charged today with "mad house," and the Fort McHenry, Md., hospital described as fit only for a sewage disposal plant today by Col. Chas. R. Forbes, war risk insurance director, before a Senate committee. Col. Forbes said liquor and narcotics were sold among the 900 former service men at Johnson City, and the bureau was powerless to correct the situation for lack of jurisdiction.

# Equal Rights For Women of Orient Not Far Distant

MRS. FREDERICK NATHAN, wealthy New York club woman and social worker, who predicts equal rights for the women of the Far East.

NEW YORK, July 28.—Mrs. Frederick Nathan, a club woman and social worker, who predicts equal rights for the women of the Far East.

**New York Club Woman Says Education of Youth Great Aid.**

SAN FRANCISCO, July 28.—Guided by the example of her sisters in the United States, the women of China and Japan are becoming more independent each year, and in a score of years will be on perfect equality with the men, according to Mrs. Frederick Nathan, wealthy New York club woman and social worker.

She arrived today on the steamer Tientsin Maru, after a four months' trip of the Far East.

Mrs. Nathan is a daughter of the Revolution, honorary president of the New York Consumers League, vice-president of the Association to Promote Proper Housing Condition for Girls, vice-president of the National Institute of Social Sciences, and is also an officer in many other prominent organizations. She went to the Orient to study the cause of girls and women, and after visiting in California for a few weeks will proceed to New York.

"Education of the youth of the Orient is fast breaking down the barriers of inequality between the sexes," she said. "This is largely due to the fact that so many of the Chinese boys are educated in the United States. I spoke to four hundred Chinese in Peking who had graduated from our universities and learned that the Chinese are becoming quite tolerant toward the women on all matters pertaining to greater liberty for the so-called weaker sex."

"In all places I met delightful native women, who knew what we in this country are all-tempting to do for girls and women. I was the guest of honor at numerous official dinners in Japan, China and Manila. General Wood, who was my host in the Philippine capital, is making a splendid impression among the Filipinos and the majority there would like to see the general assume the position of representative for the United States."

**Unveiling Hour Of Memorial Changed**

ALAMEDA, July 28.—A change in the time of unveiling the memorial fountain at Bay station will be made so as to conform to the services over the body of Cornelius Sullivan, first of Alameda killed in the war.

The unveiling ceremony, scheduled for 3 o'clock, at the city hall, the committee will meet with the Legion committee this evening for the purpose of making final arrangements for the unveiling.

The fountain is being erected to honor the names of Oscar Sommers, Joseph Hickey and Harold Dodd, who were killed in France. Bas-relief portraits, the work of Rupert Schmidt, the local sculptor, will adorn the base of the fountain. The funds for the erection of the memorial were raised through the subscriptions of the residents of the Bay station district.

**Held On Check Charge.**

Peter Hahn, alias John Miller, charged with passing fictitious checks, was held to answer to the charge in the superior court this morning by Police Judge Edward J. Tyrrell. He was arrested on the complaint of A. G. Chiquette, 1612 Telegraph avenue, who alleges that he passed a check for \$1 which was drawn on the First National Bank.

**Farmers' Market Faces Action By Health Bureau**

"Fair-Weather Business" Is Not Considered Fair To Other Merchants.

Although the city health department has ordered the so-called "Farmers' Market" at Nineteenth and Telegraph to clean up or close, no drastic action has yet been attempted by the department and will not be tried unless the order is ignored, according to Food Inspector Harry C. Mooney.

Proprietor Mooney of the Farmers' Market interviewed Commissioner Frank Colburn this morning concerning the market matter.

"I told Mooney I had no objection to a legitimate business," said Colburn, "but I hardly thought it fair that anyone should come in and have a fair-weather business. Any one could come in here and dump stuff on a lot as long as the good weather lasted, but it's not fair to merchants who must pay the costs of buildings, heat, sanitation, and all the other items of legitimate trade."

Mooney was told to confer with Food Inspector Harry Smith to see if some equitable agreement could not be reached.

"When you come right down to it," said Colburn, "we cannot stop the operation of this market unless they keep evading the law, and then it is necessary for us to secure a warrant in the courts. We are ready to do this if necessary, but we hope the question can be solved without this formality."

**Postcard Reaches Him After a Year**

CONCORD, July 28.—Lars Olsen of Concord is in the same boat as soldiers of the American Expeditionary Forces who had a saying that their mail had service stripes before it reached them at the front. Olsen's mail, that is one piece of it which he received yesterday, would be entitled to service stripes, made in Concord last December.

"I received a letter from a friend in Concord last December," Olsen wrote Olsen's friend, "and I was glad to hear from you. The card bore only the mark of the Concord postoffice."

**Canada Ready To Pay \$15,000,000 Loan**

OTTAWA, Ont., July 28.—Sir Henry Drayton, minister of finance, announced today that the \$15,000,000 loan due in New York next Monday would be paid without any further government hawking.

Thirty-two different languages besides English are spoken in New York city by some 1,700,000 people.

# SCHOOL HEAD'S ABSENCE BRINGS CLUB'S PROTEST

Ashby Improves Say Wilson's Trips Delay Berkeley School Opening.

BERKELEY, July 28.—Charging that the absence of Superintendent H. B. Wilson at Columbia university is delaying the opening of school as well as interfering with the taxpayers, resolutions have been forwarded to the board of education by the Ashby Improvement club, objecting to trips taken by the school head to all parts of the country, to the alleged neglect of his local duties.

Superintendent Wilson has been a member of the teaching staff at Columbia for the past month, and was granted a two-months' leave by the board of education to join the faculty at the eastern institution.

The resolution of the Ashby club, as signed by the secretary, George A. Patch, set forth that Section 103 of Article XV of the Berkeley charter provides that the superintendent of schools must give his full time to his duties.

The resolutions of the club are in part as follows:

"It is the attention that the salary now paid to the superintendent of schools is sufficient to warrant him leaving his full time to the duties of his office, and that when he leaves the city of Berkeley for a period of approximately two months he is not giving his full time to the duties of his office."

"Further call attention to the fact that the salary of the superintendent of schools is sufficient to warrant him leaving his full time to the duties of his office, and that when he leaves the city of Berkeley for a period of approximately two months he is not giving his full time to the duties of his office."

"We have been reliably informed that your honorable body either has refused to grant to Wilson the privilege of leaving the University of California during the next year, all of which time will be taken from his duties as Superintendent of Schools of the city of Berkeley."

In the case of his leave of absence to teach at the University of California, he has received, and will receive, a salary in each place. In addition his salary as Superintendent of Schools of the city of Berkeley.

**Bodies of Three Drowning Victims Brought Ashore**

Yosemite Lake, Stockton Canal and Bull Run Lake Yield Trio of Victims.

STOCKTON, July 28.—The bodies of three men, who met their death by drowning, were recovered today. Robert Westell, 33 years old, was killed in Yosemite Lake yesterday within sight of a throng of bathers. Westell was a powerful swimmer, but suffered from heart trouble, and it is believed that he was stricken while in the water.

The body of Luther Rodgers, who disappeared last Saturday, was found floating in the Stockton Canal today.

The third body recovered today was that of William Kerr, cattle raiser, who was drowned late yesterday in Bull Run Lake in Alpine county. The body was removed to his home at Clements. According to Kerr's two grown sons, Thomas and Samuel, Kerr attempted to swim across the lake in the middle of the island to fish. He drove his horse into the water, and without warning the horse bogged in the mud.

Kerr's two sons watched the spectacle, horror-stricken, powerless to aid their father. Kerr was a native of Jackson and leaves a widow and four children.

**U. OF C. HEAD HONORED BY SCIENCE SOCIETY**

BERKELEY, July 28.—Dr. David P. Barrows, president of the University of California, has been accorded a new honor with his appointment as a member of the National Research Council by Charles D. Walcott, president of the National Academy of Sciences.

The National Research Council was formally organized in 1916 by the National Academy of Sciences. It was established in the interest of preparedness, at the request of the president of the United States. Post-war activities of the council have been continued at the request of President Harding.

The council is composed of leading American investigators and scientists, including representatives of the army, navy, Smithsonian Institution, educational institutions, research endowments and research divisions of industrial and manufacturing establishments. Members are appointed by the president of the academy, after consultation with the presidents of leading national scientific societies.

President Barrows' appointment is for a period of three years on the division of states relations.

**Good Appetite Loses Woman Damage Suit**

BERKELEY, July 28.—Because Mrs. A. E. Burkey, 2355 Telegraph avenue, was eating dinner when a policeman called to arrest her for disturbing the peace of Mrs. Anna Mann of the same address, she has a suit for \$25 damages for arrest this morning in Judge Robert Edgar's court.

Patrolman Ralph Pidgeon, who arrested Mrs. Burkey on Mrs. Mann's complaint, testified he found the former eating dinner when arrested.

"Did she look worried?" asked the judge.

"Not that I could notice," answered the officer.

"Case dismissed," said his honor.

**Canada Ready To Pay \$15,000,000 Loan**

OTTAWA, Ont., July 28.—Sir Henry Drayton, minister of finance, announced today that the \$15,000,000 loan due in New York next Monday would be paid without any further government hawking.

Thirty-two different languages besides English are spoken in New York city by some 1,700,000 people.

# Club Women Boost Fair At Berkeley

Join in Effort To Make Success of Affair By Chamber of Commerce.

BERKELEY, July 28.—Local women's clubs will have an important role in the Chamber of Commerce's fair, which will be held in Victory square, August 15-20. The Twentieth Century club, Town and Gown club and the Southern Women's club will have special features.

It was also announced that the Berkeley chapter of the Red Cross will participate and is planning upon giving half of the proceeds from sales in the several booths to the disabled soldiers' fund and half to the Berkeley war memorial fund.

Director Anthony H. Tramp of the fair has arranged for a big show tent which will have an exhibition house, as is the San Francisco civic auditorium. The huge canvas will cover practically the entire block bounded by Milvia, Center and Grove streets and Allston way.

Alfred J. Sullivan, a member of the Twenty-third Infantry and was killed at Argonne Forest, October 6, 1918. He had served five months in the trenches and died just exactly one year to the day from the date of his enlistment in Alameda. He was a native of San Francisco and was 29 years of age. He is survived by his father, Charles Sullivan, a mother and a brother, John. Private services will be held Monday and a high mass will be sung in St. Francis church at 10 o'clock. The body will be interred in Holy Sepulchre cemetery, Hayward.

Alameda Post, No. 2. American Legion will post a guard of honor about the casket during the entire time that it lies in state in the City Hall. The body will be escorted on Saturday by the companies of National Guard from Oakland, in addition to the full membership of Alameda Post. At the court house the body will be placed in the Legion leaders and the various city officials.

A Legion committee having charge of the funeral service will arrange to have the casket carried by the companies of the National Guard from Oakland, in addition to the full membership of Alameda Post. At the court house the body will be placed in the Legion leaders and the various city officials.

A parade of 500 automobiles will be held on the opening day of the fair. The parade will be headed by the Chamber of Commerce, which will be paid a marshal, and the five divisions will be in charge of captains from the five sections of the city.

**Burglar Picks Poor Resting Place; Nabbed**

Carelessness in choosing a place to rest for the night, a neighbor of his profession, cost William Reede fifteen years in San Quentin. Judge Lincoln S. Church this morning recommended a life term for Reede on the charge of burglary.

Reede is a burglar—he admitted the impeachment in open court this morning, and a good workman. He was arrested last night on the charge of burglary, and his first "job" on the night of April 24 Reede entered the home of James Keller, 320 Lenox avenue, and stole a key and looked the place of \$1000 worth of silver and jewelry.

John G. Rohan, wealthy coal dealer and politician, whose home is at 1000 Broadway, was arrested last night on the charge of burglary. Reede carried his burden to Lakeside park and sat down to rest on a bench. He was caught by a patrolman, who followed him and when he sat down, said to the other man on the bench:

"Chief, you'd better arrest this man, he has just robbed a neighbor of mine."

Reede sat down beside Pen-ton G. Thompson, then chief of police, who took him to jail.

Rohan returned to Keller's and notified him his place had been robbed. So smoothly had Reede worked that Keller, who had heard him miss any of the valuables he took.

Details of the tragedy brought here by a member of the party that rescued Mrs. Stone after some of the circumstances described in earlier reports. According to this later report Dr. and Mrs. Stone had been taken to the Mount Diablo where they encountered Rock Chimney.

Dr. Stone was above his wife, unroped, while Mrs. Stone was roped to the rock. She was hanging from above him when the rock on which he was standing gave way and he was hurled over his wife and fell down a steep mountain to a spot difficult of access.

Mrs. Stone lowered herself as far as possible by means of the rope, and reached the top of the mountain. She attempted to leap to another ledge, but fell into a crevice and was marooned there five days without food. The only water she had was from a small stream which trickled down the mountainside during the day, when the snow melted.

**Big Oil Tanker To Be Launched Today**

ALAMEDA, July 28.—The big Standard Oil tanker F. H. Hillman is scheduled to slide down the ways into the launching arms of Neptune today. The launching ceremony will take place at 5:30 o'clock at high tide.

Mrs. H. F. Hillman, wife of the official in charge of the big tanker, will act as sponsor for the boat as she starts upon her career.

The H. F. Hillman is one of the largest tankers of the Standard Oil company. The vessel is of 15,000 tons.

**Mental Defectives Can Be Cured, Claim**

CLEVELAND, July 28.—Thousands of children are mental defectives from injuries to the neck at birth, Dr. Raymond W. Bailey of Philadelphia, declared in the opening address of the annual convention of the American Osteopathic Association here today. All of these cases can be cured by adjustment of the neck, he said, adding that nothing can be done for them.

Osteopathic clinics for the free treatment of these cases are to be established all over the country, Dr. Bailey announced.

**Slain Man's Estate In Probate Court**

Public Administrator John A. Hill was granted letters of administration today by Superior Judge E. C. Robinson in the estate of Giuseppe Suppo, who was shot and killed by Policemen Charles Nightingale and James White at Alameda.

Hill stated the property left by Suppo will amount to about \$400. He was unmarried. His parents, his only heirs, live in Italy.

# ALAMEDA MAN UNITE IN HOMAGE TO ITS DEAD HERO

Body of Cornelius Sullivan Arrives From France; Will Lie in State.

ALAMEDA, July 28.—All of Alameda will join in the homage to Cornelius Sullivan, the first of the city's war dead to be returned from France, Sunday. The body arrived today from the city of Paris. It will lie in state in the rotunda of the City Hall from Saturday morning until the ceremonies to be held Sunday afternoon. For one minute during that time all of Alameda is requested to stand in respectful silence for the dead hero. The bells will be tolled and it is hoped to arrange to have the street cars stop for a like period.

Sullivan was a member of the Twenty-third Infantry and was killed at Argonne Forest, October 6, 1918. He had served five months in the trenches and died just exactly one year to the day from the date of his enlistment in Alameda. He was a native of San Francisco and was 29 years of age. He is survived by his father, Charles Sullivan, a mother and a brother, John. Private services will be held Monday and a high mass will be sung in St. Francis church at 10 o'clock. **Dr. Stone's Body Not Found; Wife Is Recovering**

Head of Purdue University Did Not Die Trying To Save Her, She Says.

BANFF, Alberta, July 28.—Mrs. W. E. Stone, wife of the president of Purdue University, Lafayette, Ind., who lost her life while climbing the cliff at Mount Diablo, is recovering from her injuries.

She was rescued by a party of mountaineers after she had been hanging from the cliff for several days. She is now in a hospital in Banff, Alberta, and is recovering from her injuries.

Details of the tragedy brought here by a member of the party that rescued Mrs. Stone after some of the circumstances described in earlier reports. According to this later report Dr. and Mrs. Stone had been taken to the Mount Diablo where they encountered Rock Chimney.

Dr. Stone was above his wife, unroped, while Mrs. Stone was roped to the rock. She was hanging from above him when the rock on which he was standing gave way and he was hurled over his wife and fell down a steep mountain to a spot difficult of access.

Mrs. Stone lowered herself as far as possible by means of the rope, and reached the top of the mountain. She attempted to leap to another ledge, but fell into a crevice and was marooned there five days without food. The only water she had was from a small stream which trickled down the mountainside during the day, when the snow melted.

**Bandits Attempt To Burn Woman Victim**

SIoux CITY, Ia., July 28.—Four bandits believed to have been intoxicated, broke into the home of Minnie Proctor early today, robbed her of \$100 and set fire to her house, but were driven out by the fire department.

The fire department arrived in time to save the house. The bandits were driven out by the fire department. The fire department arrived in time to save the house.

North Dakota Banker Is Accused of Fraud

FARGO, N. D., July 28.—T. L. Balsch, banker, Fargo, N. D., owner of a chain of banks in North Dakota and Montana, was arrested today charged with making false entries in his books and otherwise violating the national banking laws.

Two of the banks controlled by Balsch were recently closed because of shortage at Tower, N. D., and at Platteville, N. D., where he is one of the wealthiest men in the state. His home at Fessenden is valued at \$100,000.

**Recommendations For Debs' Pardon Delayed**

WASHINGTON, July 28.—Attorney General Daugherty has completed his investigation of the case of Eugene V. Debs, Socialist leader, now in the Atlantic penitentiary, whom a pardon has been asked for. He has announced that he has not yet ready to make recommendations to the President on the pardon question, and probably will not do so for some time. He declined to give any reason for the delay.

**Anti-Grain Gambling Bill Will Be Passed**

WASHINGTON, July 28.—Passage of the Capper-Tincher anti-grain gambling bill in a modified form, following the disposal of the administration's substitute finance bill, agriculture, was decided upon today by the Republican steering committee of the Senate.

**Trial of Alleged Hold-Up Starts**

Harry Hiden, charged with attempting to hold up John Souza's soft drink parlor on Perata street on the evening of February 23, was brought to trial this morning before Superior Judge Lincoln S. Church.

Irving Fisher, accused of being Souza's accomplice, was tried on the same charge earlier in the week. The jury being unable to reach an agreement, standing seven to five for acquittal when discharged.

**Slain Man's Estate In Probate Court**

Public Administrator John A. Hill was granted letters of administration today by Superior Judge E. C. Robinson in the estate of Giuseppe Suppo, who was shot and killed by Policemen Charles Nightingale and James White at Alameda.

Hill stated the property left by Suppo will amount to about \$400. He was unmarried. His parents, his only heirs, live in Italy.

# China Civil War Imperils Peking Government Rule

By CHARLES EDWARD HOGUE, United Press Staff Correspondent.

WUCHANG, China, July 28.—(By the United Press.)—Civil war in China hangs in the balance today. Tschung Chao Hang, leader of the armies of the Hunan province, has temporarily retarded hostilities at the city of Changsha.

Chao's army, that of Tschung Wang Chao Yuan, from the Yangtze valley, clashed last night near Changsha in a preliminary engagement. Changsha was partially burned, according to reports.

The safety of 200 foreigners in the city appeared uncertain. American gunboats are rushing to the scene, according to reports, although the foreign consuls in Peking are unimpressed by the fact because the wires have been cut.

Dr. Sun Yat Sen is reported to be personally en route to Hankow and Peking.

**PEKING RULE PERILED.**

The civil war between the chieftains of the two provinces is threatening the overthrow of the Peking government and establishment of a new central government in China, on the order of the United States government, as it is thought that General Wu would at once seek an agreement with the Canton government which would bring about unity in central and southern China, thus leading to the complete overthrow of the government at Peking.

General Wu is head of an army, which is being rushed to the Yangtze valley. His forces will decide the issue between Chao and Chan, whose forces are already facing each other.

The fighting last night was mostly the result of outpost skirmishes.

**SECRET PACT MADE.**

General Wu is ostensibly on the side of Chao Yuan, but it is reported that he has a secret agreement with Chao Hang, by which he will turn his forces against Chao and will take control in central China by making concessions to Chao. With Chao pacified and sent home satisfied, General Wu, regarded as the greatest military factor in China, would have undisputed control of central China. He will probably set up a government at Wuchang, which would threaten the government at Peking.

The establishment of such a government by General Wu would generally be regarded as the first step toward bringing about a unified central government in China, on the order of the United States government, as it is thought that General Wu would at once seek an agreement with the Canton government which would bring about unity in central and southern China, thus leading to the complete overthrow of the government at Peking.

# MATTIS MOVES FOR PROTECTION OF CITY STREETS

Superintendent Again Urges Greater Care in Placing Water Mains.

The street department today began Campaign No. 556 to induce the water company to refrain from cutting up the streets with its water mains.

Ever since he took office, says Superintendent of Streets George Mattis, a flood of complaints have poured in concerning these trenches which are dug across paved streets in order that the water mains can cross. It is admitted that the water company fills in the trenches, but the break in the pavement remains and gradually the filling settles. It is alleged, till the city's streets are one long succession of corduroy bumps.

Mattis admits that much of the damage is caused by the growth of Oakland, which necessitates constant increase of the water service and a corresponding number of trenches across the streets.

"Possibly the only solution is to have the water company lay its pipe lines along both sides of the streets, instead of having them on one side with feeder lines," says Mattis. "Such a solution would be costly and would have other drawbacks. It might be unjust to the water company, at the same time the paving on our streets should be better preserved. When trenches are dug more care should be taken to restore the pavement."

Mattis today sent another letter to the water company on the subject.

# Crowd Mobs Three San Francisco Police

SAN FRANCISCO, July 28.—Two forces of detectives, one from the upper office and the other from the Harbor police district are endeavoring today to establish the identity of a mob of strike sympathizers who attacked Captain of Detectives James Hurlbly and Special Duty Officers Patrick Walsh and James Sullivan.

The police went to the headquarters of one of the unions whose men are on strike. They were in plain clothes and they had a strike breaker in tow. He was to point out several alleged assailants. The officers said that when they entered the place they were confronted by more than 100 men who made a rush for the strikebreaker. In protecting him Walsh was knocked down.

The officers managed to save themselves and their companion, but were surrounded by a mob of about 500 persons on the street outside and no arrests were made. It is understood that the strike assailants of Patrolman Walsh can be identified they will be arrested.

# Appointments Made By Gov. Stephens

SACRAMENTO, July 28.—Governor Stephens' office today announced the following appointments of officials in the state department of agriculture, under the reorganization plan, which is effective Saturday:

Director, George H. Reuker; chief of division of weights and measures, R. O. Melvin; chief of the division of markets, Harry S. Maddox; chief of the division of chemistry, George F. Quinn; chief of the division of animal industry, Dr. J. P. Iverson.

All of today's appointees have been performing the same duties under the old system of organization, but they will be under the reorganization plan, but instead of being separate offices, as in the past, they are grouped under one department.

# Motorists Complain Of Trees On Roads

Complaints were received by the street department today against the overhanging boughs which protrude into the Miller and Moraga roads, behind the city. On one side of the street a pipe-line is being laid by a new real estate tract, crowding all vehicles to the other side, where they meet the boughs.

Limousines, it is complained, are having their paint scratched on by the boughs. Open roadsters are often in danger of having their drive shafts broken.

Superintendent of Streets George Mattis sent a delegation of workers to the Miller road, but as the Moraga road is in Piedmont he referred that part of it to the proper authorities.

# Woman Loses Purse, Two Valuable Rings

Four small burglaries were reported to the police during the night. The home of Mrs. T. B. Robertson, 1110 Tenth street, was entered and a purse containing \$10, a diamond ring and an opal ring were taken.

Mrs. H. F. Goe of the Harrison Hotel had a suitcase taken from her automobile which was parked at the corner of Fourteenth and Clay streets. The grip contained clothing valued at several hundred dollars.

C. Fairbanks reported that his room in the Golden West Hotel was entered and three suits of clothes taken.

A grip containing surgical instruments was taken from the machine of Dr. Dudley Smith. The machine was parked at Fourteenth and Clay streets.

**WE WANT A USED CAR DEPT. MGR.**

Must have a good reputation and be of proven ability. Application for appointment by letter only.

An excellent position for the right man.

**Walter M. Murphy Motors Co.**

# Willie Would Have Made a Hit in His New Light Suit If He Hadn't Stood in Front of the Setting Sun

By DONAHEY

# Militant Cook, Age 74, Lands in San Jose's Jail

Cracks Chinese Rival, 76, Over Head With Big Iron Bar.

SAN JOSE, July 28.—For the next 150 days Santa Clara county's prisoners at Sheriff George Lyle's free hotel are going to be treated to genuine delicacies in the line of eatables.

That is to say, what eatables are allowed are going to be cooked as possible to cook them.

The county jail is going to have a new cook. He wasn't hired. He was drafted, despite the fact that he pleaded for exemption.

The new chow-master will be none other than Ah Him, 74-year-old Oriental, who last Saturday night pulled a Jack Dempsey stunt on Yee Sung, 76, with such complete success that he landed in the city jail on a charge of battery.

Yesterday afternoon the Oriental, whose corpulence is second only to his ability to "do things up right" in a fight sense, appeared before Police Judge Thomas R. Dougherty on the battery charge preferred against him by his aged victim.

The usual court routine was followed and Ah Him was asked whether he desired to plead guilty or not guilty, to which the indignant Chinaman replied:

"No guilty! Me no guilty! Me catch on quarrel with Yee Sung. He was old devil. Allie make trouble, so me taken iron bar, crack over head arm, back. I no guilty! He guilty!"

"What's the idea?" queried the judge. "Do you want oysters in your soup? Nothing doing, the sentence stands."

So Ah Him, being a good cook, has been drafted into service at the county jail.

# Fire Prevention And Thrift New Courses

Two new courses of study, thrift and fire prevention, are being added to the curriculum of the Oakland schools this autumn, as part of the civics course.

The order for the new courses is a result of a communication from the State Superintendent of Education, giving notice that such courses will be mandatory for all schools in California this year. The courses will require no outlay of money, except for some books on fire prevention.

The fire prevention course, according to education, is caused by the number of fires throughout the country and also by the automobile, which brings folks into the woods frequently, with a possibility of setting up old devil, wherever they go. It is asserted, is already partially in effect in Oakland schools, where savings plans are being fostered by teachers.

# Woman Is Injured In Fall of Porch

MARTINEZ, July 28.—Mrs. Ethel Carroll was painfully cut on the left leg last night when the railing about the porch of her home on Eleventh street gave way, allowing her to fall seven feet to the ground. A nail in the broken railing pierced her clothing and ran a cut in her leg about seven inches long. Dr. G. W. Seiser found it necessary to take nine Carbol had gone to the porch to call her children and leaned too heavily against the weakened railing, resulting around a corner of the home.

# Wandering S. F. Lad Tells Tale of His Adventures

SAN JOSE, July 28.—John O'Leary, 1363 Brussels street, San Francisco, is 13 years of age and very much imbued with the spirit of independence, enthusiasm and adventure. Therefore we have him with us today at the local juvenile court detention home, preparatory to being returned to his mother and father, Mr. and Mrs. John O'Leary Sr., in San Francisco.

It all came about in this way. Police Officer Tom Short was patrolling his beat as his custom and duty shortly before midnight last night when suddenly he espied a hatless, coatless and barefooted youth, lower headed and soiled with the dust of highways, lurking in a downtown doorway.

The lad had seen the cop first, but it did him no good. He attempted to run, despite his bare feet, but his flight was short-lived and in a moment Short had John O'Leary Jr. safely in tow.

SHY OF POLICEMEN.

At the police office the somewhat bashful youth faced an array of much-amused officers. He looked them over and then hid his face in a corner, not stating whether it was that the coppers were hard to look at or that their questioning gazed into his very soul and made him penitent.

Anyway, young O'Leary said he was a Sinn Feiner and declared that he wasn't cold despite his bare feet and coatless shoulders, and that he wasn't hungry even, though he hadn't eaten since early morning.

O'Leary declared emphatically that he had run away from home. Most emphatically that was not so. Why, he intended to return immediately last night after arriving from San Francisco on an auto truck. He had never intended coming this far. He told the officers, but had fallen asleep on the auto truck on which he had stolen a ride. He declared another youth had left home with him last night about 6 o'clock and wandered to the highway, where they "tripped" the ride. I began his partner in flight was, however, the young hero of our tale could not say.

DESERVED BY PAL.

"He jumped out on me," O'Leary declared, "when I was asleep in the truck and when I woke up I was all alone. I found myself passing a street car and then I began to wonder where I was. The truck driver started to turn into a building and I jumped. Now here I am, but I won't be here much longer if I can help it."

Asked if he would stay there and not attempt to run away if placed in the juvenile detention home for the night, O'Leary replied in disdain, "Huh, not if there was any way out!"

Therefore he was made to wash his hands and face, as well as his feet, whereupon he was placed in the women's cell of the city prison, where he was safely incarcerated for the night. Kindly officers later served him with a couple of sandwiches and a cup of coffee, all of which he ate with a "regular bull" in the eyes of the young knight errant.

O'Leary's father, an employee of the San Francisco municipal railroads, is expected in this city today to take back his wandering child.

# San Jose Plans City Auditorium To Honor Dead

Bond Election Is Planned To Raise \$700,000 For Memorial.

SAN JOSE, July 28.—With 45 civic organizations of many kinds represented in a meeting held in the city council chambers here last night, definite plans for a campaign to erect a \$700,000 municipal auditorium as a memorial to San Jose's soldier dead were launched.

That the money will be raised by a bond election was the sentiment expressed. Various speakers, including leaders of labor, capital and every other element in the city, bespoke confidence that such a proposition could be carried.

By a vote of the representatives present, Percy O'Connor, general chairman of the big civic committee, was empowered to appoint a ways and means committee, general committee, finance committee, publicity committee, campaign committee and any other committees that he might see fit to establish.

Plans were set for the holding of a second general mass meeting on August 17 in the city hall here, at which the ways and means committee will state its findings and the date will be set for the holding of the bond election. From that time forward, O'Connor stated today, the campaign would be carried on with vigor. The fact that the auditorium will stand as a memorial to the city's soldier dead, it is expected, will greatly influence an affirmative vote.

MAN STEALS DOG.

A black and tan prize dog valued at \$25 was reported lost or stolen this morning by Mrs. F. Moon, 1520 Twenty-first avenue. A small boy who lives in the neighborhood told the police that early last night he saw a man carrying the dog under his arm away from the house.

# W. P. RAILWAY TO BEGIN WORK AT ONCE ON DEPOT

27th and Santa Clara Streets Announced As Site Of San Jose Terminal.

SAN JOSE, July 28.—Setting at rest all speculation which has been rife in this city for months, Day S. McCrone, local manager for the Western Pacific Railroad, today announced that the company's big new passenger depot will be situated on the northwest corner of Twenty-seventh and Santa Clara streets, announcing incidentally that work on the construction of the new building would be commenced immediately.

McCrone's reiterated statements made several days ago to the effect that the structure will be a magnificent one, but stated that the time was not yet ready for further details.

Speculation had placed the new Western Pacific depot at various places in the eastern, southern and western parts of the city. There had also been considerable talk of a union depot of the Southern and Western Pacific railroads to the south of the city, but all these conjectures were set at naught by the announcement of this morning.

McCrone declared that his company is not planning to operate an extensive passenger service into this city for some time to come. Meanwhile, he stated, the line will be used almost exclusively, but extensively, by freight trains, which will aid in getting the roadbed of the new railroad into proper condition for the handling of passenger service later.

When the passenger service is launched, McCrone stated, it will merely be local between San Jose and Niles, which will be a junction point to Oakland and Stockton and all points east. There will be no through trains between San Jose and Oakland and San Jose and Stockton, temporarily at least.

The main freight yards of the Western Pacific, it was further announced this morning, will be situated near Twenty-fourth and William streets, where numerous buildings will also go up. The main freight depot, however, will be north of the passenger depot on Twenty-seventh street, it was said.

# Bobbed Hair Angers Husband, Wife Says

Other women and anger of her husband over her action in having her hair cut short, helped to wreck the marital happiness of Mrs. Elizabeth Slattery, according to her divorce complaint filed today against Harold J. Slattery.

Mrs. Slattery says when her husband returned home in the evening and found her tresses shorn, he became so angry that he snatched from her shoulders a valuable cape and tore it into pieces, ruining it.

Mrs. Slattery declares she was neglected for other women and that on more than one occasion he took a feminine friend with him on out town trips.

The couple married in December, 1917, and separated in August of last year. There are no children.

**Gantzen Swimming Suits**

WHAT joy the summer months hold for those who swim. Whether at the beach, in the river or in pools, nothing quite compares with that glowing "good-to-be-alive" feeling after a real swim.

Of first importance is the suit—it makes or mars the swim. The Gantzen is the right kind of suit for water activities. It never binds—it never sags—it fits. The Gantzen stitch makes this suit fit naturally, comfortably, easily and hold its shape after years of service.

Those champions wear and endorse Gantzen:

- DUKE KAHANAMOKU, Honolulu, World's Champion at 100 yds. Olympic Games 1920.
- NORMAN ROSS, Illinois Athletic Club, World's Champion at 220, 440, 880 yds. Olympic Games 1920.
- LEWIS (Happy) KUHN, World's Champion Diver, Olympic Games 1920.
- WM. (Bud) WALLIN, Illinois Athletic Club, National Mile Champion.

The good shops of your city are showing new models in Gantzen for men, women and children. Ask to see the original Gantzen.

# Fruit Growers Of Lodi Get Big Prices in East

Plum and Peach Growers Receive Specially Good Returns On Shipments.

LODI, July 28.—Local fruit shippers, especially plum growers, are well pleased with prices now being obtained in the eastern markets. Crates are bringing from \$2.50 to \$2.

Peach shippers are also doing very well. Grapes are beginning to color and within four weeks the first shipments will start East. Some midwest is showing, but not enough to create alarm.

Early killing frost severely injured many vineyards, but on the whole a good crop will result. Investigation proves the vineyards well irrigated and cultivated from the earliest part of spring have suffered least from frost and sunburn.

# WATER RIGHTS CONFIRMED BY STATE BOARD

Claims of Oakdale and South San Joaquin Districts Granted in Full.

OAKDALE, July 28.—Having completed its adjudication of the water rights on the upper Stanislaus, the state water commission, in its decision, has given the Oakdale and the South San Joaquin irrigation districts practically everything they sought, but with the proviso that they make use of the additional water thus granted by January 1, 1928.

The decision, involving property worth millions of dollars, confirms the two districts in their right to irrigate 145,000 acres of land. The Oakdale district has 72,000 acres of this amount.

The districts are confirmed in their claims on 1920 second feet of water, which they always claimed, on the Stanislaus.

In addition to building reservoirs, the two districts are obligated to enlarge their canals to carry the additional quantity of water granted them.

# Caddie Killed By Blow From Brother's Club

"Don't Let Him Die" Prays Little Chap Over Dead Body.

SAN RAFAEL, July 28.—George Strohers, 12, was accidentally killed by his brother, Albert, 14, yesterday, when the latter, swinging a golf club, dealt the younger brother a blow behind the left ear, fracturing his skull.

The accident took place in front of the North Shore hotel, while the brothers, caddies at the Marin Golf and Country club, were returning from the links. Anthony Tignoli, proprietor of the hotel, who was a witness, said that Albert was swinging at a stone and a back stroke caught George on the head. The boy died in Tignoli's arms.

When Dr. R. G. Doolittle arrived the lad was dead and Albert was kneeling beside the body, praying and pleading, "Don't let him die."

Authorities turned over to his widowed mother, Mrs. Strohers.

# New Officer Added To S. J. Police Force

SAN JOSE, July 28.—Louis Rogge, who for the past two months has been serving in the capacity of special officer for the local police department, was yesterday afternoon sworn in by City Clerk John J. Lynch as a full fledged police officer, and tonight will don a uniform when he takes to his beat. Rogge has already firmly established himself with members of the department and is well known in the city. He passed his civil service examinations with a high ranking. He formerly lived in Santa Cruz.

# New Officers Of Oakland Y. L. I. To Be Installed

ANNA QUINN, Vice-President of the Oakland Y. L. I. No. 15, who will be installed at a meeting tonight.

# Berkeley Leader To Preside At Meeting of Local Institute.

Recently elected officers to Oakland Institute Y. L. I. No. 15 will be installed tonight at a meeting of the organization in Jenny Lind hall, 2229 Telegraph avenue. Miss Catherine Patrick of Berkeley Institute No. 55 will be the installing officer.

The new officers of the institute who will serve during the ensuing year and who will be installed at the meeting tonight are: Past president, Catherine McHale; president, Gertrude Dooley; vice-president, Anna Quinn; second vice-president, Grace McGivney; marshal, Gertrude Quinn; recording secretary, Mary Rhodes; financial secretary, Isabelle Cuddy; treasurer, Kathryn McKlernan; trustees, Ellen Lenane, Eda Ford, Carrie Wall, Belle Merriek, Loretta Burke; outside sentinel, Marion Shea; inside sentinel, Margaret Ward; organist, Elina Rocca.

The committee in charge of the installation is Delphine Kenny, Anna Quinn, Daisy Keller, Isabelle Cuddy. Dancing will follow the installation.

# SOCIETIES TRY FOR A COMEBACK IN S. J. SCHOOLS

Organizations, Abolished As Making For Snobbishness, Seek Reinstatement.

SAN JOSE, July 28.—So-called "literary societies" of the San Jose high school, which were ordered abolished by Principal Raymond B. Leland last year because, he said, they inclined toward "snobbishness" and were nothing more than fraternities and sororities, will seek reinstatement in the school life of that institution when the fall semester opens next September, according to statements made here today by several leaders of the defunct organizations.

Their reinstatement will be sought on the ground that they are only conducive of good and go toward creating higher ideals in school life. The leaders, who asked that their names be dropped at the present time, declared they "resent" the reflection cast upon the members of the six abolished societies through their ousting from school life.

While the question is ultimately believed to rest with the principal and faculty, the old literary society leaders will ask that the entire student body of 2000 be allowed to vote on the question of reinstatement, suggesting that the faculty take the vote of the students as an indication of their sentiment.

"Disaffection amongst the students," stated one leader today, "which has existed since the time the literary societies were ordered abolished, has had for the school spirit and only creates animosity between the students and faculty. We believe that the general feeling of resentment over the action in ousting the societies would be strongly expressed in a general vote of the students, which we will ask of the faculty when school reopens."

While he could not be reached today, Principal Leland is known to be even more strong in his condemnation of the societies now than prior to their abolition. He thinks less of the societies, he has stated to his friends, but because conditions in school life have been so "vastly improved" since the societies were dropped.

The organizations, it was said at the time of their suspension, were creating cliques in the high school, amongst both the boys and girls, and were creating the feeling amongst non-member students that they were "rank outsiders" with little or no chance to "rise" in school life. The charge was made that the societies were "running school politics," and that student body officers were not being "elected on their merit."

On several occasions the organizations were virtually "put on probation," but failed to "make good." The fight over the existence of the societies was a long and bitter one, students themselves having urged that they be abolished.

The six abolished societies which will seek reinstatement were Senate, Abolished and Legions, the three boys societies, and Delphi, Epheuerian and Philaethia, the girls organizations.

## THE NEED OF WORLD POLICIES.

On October 25, 1913, Hon. Walter Hines Page, then American ambassador to Great Britain, wrote to President Wilson from London:

"The great economic tide of the century flows our way. We shall have the big world questions to decide presently. Then we shall need world policies; and it will be these old-time world leaders that we shall then have to work with, more closely than now."

That was a true vision in 1913. Mr. Hines did not foresee the great war and thus was not influenced in his speculations by its prospect. But the war came and forced his prophesy into almost immediate realization. Even as he wrote the tides were almost upon us. They have surged over us for seven years. The work of stabilizing them and keeping them within our control has not progressed as much as it should have, but some coherence, some system dedicated to the idea of diverting their energy to our benefit and of maintaining the advantages they have brought has of late become apparent as the aim of government and business.

Before and after 1913 THE TRIBUNE pointed out the urgent need of world policies by the national government and beseeched the administration at Washington to establish permanently world policies. Other organs of public utterance and some influence did likewise. It is now disclosed that President Wilson's official representative in the most important world capital did the same thing. Yet President Wilson never had a foreign policy.

Mr. Page was too loyal a friend of the President, had too much faith in his destiny, to utter any sort of a rebuke by indirection, but it is a curious footnote to history that when he wrote his letter of October, 1913, President Wilson and Secretary of State Bryan were about completing their scheme of scuttling America's foreign policy. They had abandoned all American effort in the Far East, in Mexico and elsewhere. They had announced that those who carried the Stars and Stripes to foreign fields were dollar chasers and were not to expect assistance or protection.

Walter Hines Page was a distinguished American. A journalist by profession and business—and he was a great journalist—he found himself ambassador to London in the most critical period in the relations between this nation and Great Britain since the time of Madison. He acquitted himself well. He proved worthy of his famous predecessors in that important post.

And it is with exhilaration that one is able to note that political affiliations rarely dim the vision of the really able and wise man. While Wilson and Bryan were wrecking the foundation of foreign policies which previous administrations had tediously laid, Mr. Page emphasized the need of world policies.

Moreover, he foresaw that when the opportunity and the duty of America was no longer avoidable we would have to deal with the old time statesmen of the Old World. President Harding, who has brought the United States back to its proper place in the world relations, has realized this. In the conversations now going on and in those to take place later, all of the most important character, it is necessary to adjust our methods of statesmanship and diplomacy to fit requirements which are not as the idealist believes them, or as Americans would prefer them, to be.

## FIFTY YEARS AFTER.

The man who drove the last spike on the Central Pacific railroad, connecting it with the Union Pacific near Ogden, Utah, died yesterday. He was J. H. Strobridge of Castro Valley, ninety-five years of age. His job of building the Central Pacific was finished in 1869, and thus noted engineer then saw completed the transcontinental rail line that was to contribute so much to the development of the Pacific Coast and the intermountain States.

Mr. Strobridge was more fortunate than most men. Not many are permitted to live fifty-two years after completing a work so important as the building of the Central Pacific. Perhaps there was, in the proud company at Corinne, Utah, in 1869, when the two railroads were linked up, some talk of what would be in fifty

years. But if so, it is reasonably certain that modest prophecies were uttered.

There was probably no one in the crowd who foresaw that before a half century had passed four transcontinental railroads would cross the Rocky Mountains and find terminals in California; and that all of them would carry enough traffic to pay profits on their investments. Mr. Strobridge lived to see more than the prophets imagined.

## THE COUNTRY IS SAFE.

According to the statement of the City Manager of San Jose, President William Sproule of the Southern Pacific Railroad Company, has written to that official declining to discharge the railroad's share in performing certain public improvements in San Jose on the ground that the "financial condition of the country and the railroad is not such that it would be wise to carry out the change at present."

There was something in the rarified atmosphere of government service during the war period that has had a lasting effect on the ordinary business man who was allotted some government task. Little conceits were developed which seem particularly difficult to get rid of. A habit of grandiloquence has lingered about some of the honored ones which, when adapted to common business questions, are incongruous and absurd.

What possible effect can the expenditure of a few thousands of dollars by a great and profitable railroad corporation in a track change in the modest city of San Jose have on the financial condition of the country? Not the least effect. To say or to believe otherwise is to attain the ultimate of puerility. If the financial condition of the country would be affected at all, which is not possible, by the expenditure of a small amount of Southern Pacific earnings in improving the business facilities of San Jose, it would be favorably affected.

We have heard so much of this threadbare excuse about the country's financial condition not permitting a railroad corporation to discharge its obligations to the public that we ought to have heard the last of it. It was raised in connection of the contract to build a new bridge across the estuary. It was raised in connection with the order of the railroad commission that the old S. P. shacks at Thirteenth and Franklin streets be removed. If only \$10 was involved no doubt some corporation official would fatuously claim that he was concerned with the country's financial condition.

San Jose deserves sympathy. It should exert every effort to require the railroad company to go ahead at once with the fulfillment of its franchise obligations. The country will not suffer if it does.

Probably the story of the Tokyo newspaper that the Japanese government will protect the ejection of Japanese citizens from Turkey by a mob is incorrect. If the State and federal authorities diligently undertake to punish the members of the mob who committed the crime, there will be no ground for a protest. While too much cannot be expected of the State administration, the federal authorities probably will not ignore their duty.

No one seems able to state exactly what Dr. Einstein said about Americans during his recent visit to this country. Well, nobody seemed to understand much of what he said about the theory of relativity in mathematics.

## COSTLY SHIPPING.

Chairman Lasker sprang an unwelcome surprise on Monday in his announcement of \$280,000,000 of hitherto unacknowledged Shipping Board expenditures made during the year just ended. However little the disclosure may please the average citizen, he owes thanks to the man who made it. Deficits grow in the dark. The first step toward overcoming them is to expose them to daylight.

President Harding holds this view, as well as his subordinate. His taking the pains after the Tuesday cabinet meeting to have an official statement sent forth promising reform of Shipping Board accounts shows that he has no sympathy for the folly of the past expensive reticence.

Furthermore, it shows that he has an idea of the true cost of the trouble. Now for the nation to come suddenly face to face with a vacancy of \$280,000,000 in its funds has disturbing features in itself. It throws more or less out of joint plans of revenue and expenditure already made. But the discovery that the Shipping Board, under its recent management, could fall short of receipts by \$280,000,000 more than it realized causes dismay of quite a different order. The stupendous miscalculation furnishes evidence of an underlying weakness in the very system of government maintenance of any enterprise designed to be self-supporting. The banker has to know his balance sheet to a cent. The railroad president must make up a correct operating account or risk his line's solvency. But the Government-conducted business of shipping can dip into public funds with its eyes shut and no one know the difference.

It seems utterly unthinkable to attribute to the respected predecessor of Mr. Lasker any inkling of the state of things as the incoming chairman presents them. That makes matters so much worse. The public could set up some safeguard against crookery or folly if they existed. It has no ready cure for the actual fault, the defect of mechanism. That fault is the lack of an automatic device to keep a government run business on a profitable course. Privately run business has such a device. It earns its way or goes down. But a thing like the Shipping Board has multiple ways to sustain itself at the government's expense, imperceptibly to the government and even as it would seem imperceptibly to itself.

A survey of the country has shown that the people are more concerned over taxation than over any other governmental problem. They have their own business troubles, of course, to which they give first attention; but what they want the government to do, more than any other thing, is to reduce expenses and taxes.—Martinez Gazette.

There are some anti-prohibitionists who favor the strict enforcement of a law they do not like. May it be on the theory that the tighter the dam the quicker it will overflow.—Woodland Democrat.

## NOTES and COMMENT

A despatch from Seattle is entirely different. It tells about the city council cutting the salary of every city employee \$10 a month, and the pay of laborers 25 cents a day. It is the solitary instance. The trend has been the reverse, and that it should be halted at Seattle is indeed surprising, for that city has been noted for trends that were headed the other way.

If Japan and the United States favor holding the world disarmament conference in San Francisco there would seem to be a prospect of the city being thus honored. It might not be as moist and mercurial as a certain other convention that was held there, but it would be a great identifier of the Pacific Coast's and California's importance.

It turns out that the Governor of Illinois is not hedged about by divinity, and consequently the militia was not summoned to prevent his arrest. He was taken into custody the same as the ordinary man would have been who had got out of the law. There is some satisfaction that this impartiality has been demonstrated in this case, though there was a considerable belief that it would be.

The demand of the Russian Soviet for \$175,000,000, alleged to be on deposit in banks here to the credit of the ambassador of the old Russian government, is not likely to meet with precipitate acquiescence. As to that, it is by no means certain that the ambassador has any such sum to his credit. It is a long time since his government went out of existence, and, together with a large contingent, he has had to eat in the meantime.

The testimony in the "Black Sox" cases shows that the accused players not only threw games and thus double-crossed their club, but that they double-crossed the gamblers, though the gamblers double-crossed them more effectually. Also that they double-crossed one another, and finally that at least one of them double-crossed everybody involved by turning State's evidence. It is a mess, indeed.

This is an editorial expression from the New York Herald: "As a matter of fact, though not many city leaders seem to know it, this New York is the most favored region of the globe as respects climate. If the weather here has been hot and humid this summer, other regions have suffered more." Cander in admitting that not many New Yorkers know it, and philosophers in remembering that there are places where the weather is worse.

Captain Matson blames the wave of crime that has been sweeping over the land on "industrialism." There is no footnote, and each must elucidate according to his view. But the high wages that have prevailed and are still prevailing to an extent, one might think, would have a tendency to the contrary. Anyhow, that does not explain it, but argument, and certainty does not excuse it.

It may be coming to a pass where it will be hard lines for divorcees. Mrs. Whitney gets but \$150 a month alimony and is lectured by the Judge into the bargain. The lecture may not hurt, but only \$150! Considering the many precedents, it is piking.

Secretary Mellon reports that the national debt is now \$23,558,597,542.49. Well, upon the Kansas City Star suggests we now proceed to follow the old proverb and look after the 43 cents and the dollars will take care of themselves.

The couple who were wedded and didn't know it, supposing the ceremony a mere preliminary, afford a vivid contrast to the sometime instance. Testimony could be gathered to the effect that occasions have occurred when the pair came to know it too well.

## SPIRIT OF THE STATE PRESS

We are getting civilized by degrees. Every once in a while there is an incident to prove it. While some may cite the proposed bullfight at the Salinas rodeo as evidence to the contrary, we draw on the same incident for our proof in favor of man's advancement. The fact that enough citizens oppose the stunt to put up a formidable objection is something.—Palo Alto Times.

Sacramento county will be the first county in the United States to adopt the manager form of government, if a movement now under way is successful. Petitions have been signed calling for an election of a manager to draft the charter. While there are a number of cities in the United States having the manager form, Sacramento recently being added to the list, there is as yet no county operating under this governmental method.—Turlock Journal.

The announcement that Santa Catalina Island is gradually sinking into the ocean will be welcomed by those who feared that serious complications might follow the claim of Mexico to that territory. Of course the island will not disappear soon. A few centuries anyway must elapse. Meanwhile Mexico has, south of the Rio Grande, all the territory that she can handle, and perhaps more.—Bakersfield Californian.

A survey of the country has shown that the people are more concerned over taxation than over any other governmental problem. They have their own business troubles, of course, to which they give first attention; but what they want the government to do, more than any other thing, is to reduce expenses and taxes.—Martinez Gazette.

There are some anti-prohibitionists who favor the strict enforcement of a law they do not like. May it be on the theory that the tighter the dam the quicker it will overflow.—Woodland Democrat.

ONE RESULT FROM THE EXPERIMENT.

25,000,000 SLAVS STARVING

COMMUNIST RUSSIA

## THE DANUBE

"One of the most significant indications that Central Europe is on the road to better economic conditions is the report of the Danube shipping companies," notes a bulletin from the Washington, D. C., headquarters of the National Geographic Society.

"Economically the Danube is to the landlocked nations of Europe what the Mediterranean sea is to the countries of Southern Europe. One of the northern frontiers of the Roman empire; later in the path for conquering hordes of Huns, Slavs and Magyars; now the commercial Main Street of Central Europe, the Danube may claim to be the most important river of Europe, though it is exceeded by the Volga in length."

"Human activity attains extremes along the Danube's course even more marked than the contrasts along bazaar Broadway, New York. Its waters see the bare, cold and destitution of Vienna and flow by dirt roads on which Hungarian women pound their clothes with wooden mallets and bear them away in tubs on their heads. They pass mills like those of Minneapolis, bear vessels like those on the Hudson, and turn the waters of boat-horne, water-wheels to which people come to buy grain in primitive carts with even the wheels kept in place by wooden pins."

"The river halves Budapest and courses by busy Belgrade, where it receives the waters of the Save. It carries barges on which families live as they live on canal boats. Grin castles stand along its banks."

"Scientifically the Danube possesses variety almost as infinite. Rising in the Black Forest, some of its waters seep through underground fissures to a stream of the Danube between high hills, times it pressed under its waters in Bavaria. In Austria it splits into many arms and forms a whirlpool. In Hungary plains it sprawls wide, receiving many important branches, remnants of a prehistoric inland sea. It resumes a wild, torrential aspect. It pierces the Kazan gorges and the Iron Gates. It receives nearly as many tributaries as there are days in the year and drains an area almost equivalent to that of Egypt."

"Along the steep right bank of the Kazan defile can be traced a road built by the Romans early in the second century. Not until recently has the construction of a modern road made the defile passable upon either bank. Recognition of the international importance of the Danube was manifested by placing it under a commission in 1915, and further promulgation in 1919, are contained in subsequent treaties, including that of Versailles in 1919."

## MEDITATIONS.

Some characters, if not held high and fine will be petty. Some people will be always mediocre—never rising to very great heights in the opportunities and emergencies of life; neither will they go to the depths of virtues and pettiness.

Always they will be saved the vertigo of wrong-doing by their friends and neighbors, but it is because they are not capable of the extremes of feeling that produce Saints on the Heights, and Sinners in the Valley of Despair.

And so, with a thing sometimes they balance and leaves in the Valley of Despair a soul that had aimed for the Heights of Sanctity.

If you must go hence ere I go—If life must hold me yet awhile—Till I have spun my web—Death, but holds in check his hand Till the Master signals: "I command!"

'Tis but a span, I weave in joy. You wait for me beside the gate you know I'll enter. And I shall see you—sense you. Let'en that gate shall open.

—A. K. L.

## WHAT IS DOING TO NIGHT

Alameda Maccabees give hard time dance.

Oakland Elks' drill team holds dance, Auditorium, evening.

The woman's teacher friend is struggling this year with a class of 6-year-olds of foreign parentage. Sometimes their older brothers or sisters bring them to school to be admitted, and quite often the required information for their record cards is not obtained. The teacher has been patiently and tactfully trying to extract some of the missing data.

"What is your father's first name?" she asked dark-skinned, wide-eyed Minnie.  
"I don't know," answered Minnie, with a characteristic shrug.  
"But you must know, Minnie. Think! What name does your mother call your father?"  
Minnie smiled proudly and affectionately. "My mamma don't call my papa no names," she answered, promptly. "She likes him."—New York Sun.

## BACK TO GOOD OLD DAYS.

We saw with our own eyes a groceryman put a plate on the spout of an oil can the other day. Perhaps the time is coming back when the market man will give us free liver for fish bait once more.—Essexridge (Kan.) Independent.

## What YOUR HEALTH

What Fainting Really Is  
And Best Emergency Ways  
By ROYAL S. COPELAND, M. D.,  
Commissioner of Health, New York City.

Probably the most common health emergency is fainting. It is not a sign of serious illness, but, no matter how frequently the condition is met, it always produces a stir. A great audience may be upset completely by the fainting of one person. Fainting is due to a number of causes. The chief factor is the failure of the heart to perform its proper function. This failure may result from one of a variety of evil influences.

The seriousness of a fainting spell depends on the conditions surrounding the patient.

In a hot room, with hundreds of persons crowded together, the crush, excitement and fatigue may cause a weak but otherwise normal heart to fail in its duty.

An over-full stomach, or a very empty one, may put the victim into a physical state where a fainting cause may stop the heart's action. When one drops off in a faint without any apparent reason, it is a more serious condition. It is particularly the case if the attacks become more and more common.

Highly nervous, excitable and emotional persons are more liable to fainting spells than are stolid and matter-of-fact individuals. The sight of blood, sudden fear or sudden shock will send them off into a dead faint.

It is a common mistake to hold a faint person in an upright position. I have seen several cases where fainting has proved to be pretty serious, because for half an hour or sitting position.

The first thing to do when anyone faints is to place her on her back flat on the floor or on a bed. If on a couch or bed, raise the foot of the bed so that the patient's head is lower than her feet.

The aim of the treatment is to get the blood back into the head. To this end the arms may be raised, so that gravity will assist the cure. Stimulants should be given. Whisky, brandy, aromatic spirits of ammonia or any other stimulant will do good, if the patient can swallow. A good deal at a time poured into the mouth will produce favorable results.

Lots of fresh air should be made available. On this account, it is well to remove the person who has fainted from a crowded place and away from the curious who will crowd around the patient.

Smelling salts may be of some use. I want to say of them, however, that their daily and hourly use is just as damaging as a similar use of any other stimulant. Temperance is a good thing even in the use of smelling salts.

Fanning, dashing cold water into the face, or bathing the face with cold water, and gently slapping the face, are useful measures. The object of all treatment is to improve the circulation and to make blood return to the brain.

DID MR. HARDING OVERSTEP?  
It is a nice infinitesimal point that President Harding acted in defiance of the constitution in addressing the Senate on the bonus bill on a bet. He advocated the defeat of a measure instead of recommending its passage. The duties of the President are defined in section 3, article 2, of the constitution, in part.

He shall from time to time give to the Congress information of the state of the Union and recommend to their consideration such measures as he shall judge necessary and expedient.

It may be suggested that the point be discussed in open session by the Senate's ablest constitutional lawyers and that Woodrow Wilson, the great congressional dictator of yore, be invited to sit in the gallery as the Senate's special guest. Mr. Wilson might be interested because he never addressed Congress except when recommending the passage of something.—Springfield Republican.

## YOUNG WIFE SHOT IN BACK BY HUSBAND

Mrs. Annie Wagner, 19, in  
Hospital With Bullet in  
Back; Gun Accidentally  
Discharged, Claims Spouse

SAN FRANCISCO, July 28.—Shot through the back by a pistol in the hands of her husband, Mrs. Annie Wagner, 19 years old, 1034 Jameson street, is at the Potrero emergency hospital in a serious condition, while the police and detectives from the upper office are investigating.

Mrs. Wagner was just getting up, her three-months-old child was lying nearby, when the shot was fired. The bullet entered her back near the upper portion of the spine. In the ambulance she told the steward that her husband, Adolph, 23 years old, an employee of the Pacific Gas and Electric Company, had been inspecting the gun and accidentally discharged it.

"I do not know any reason why my husband should shoot me," Mrs. Wagner said at the hospital. "We had no quarrel and there was no reason why he should want to harm me. It may have been an accident."

According to Steward McKenna, Mrs. Wagner was only partially dressed when he reached the house. The babe was lying on the bed and appearances indicated that the shot had been fired at close range.

The husband was taken to the Potrero police station where he told the detectives the shooting was accidental. No charge has been placed against him up to late this afternoon.

## Crazed Man Visits Church, Fells Priest

SAN FRANCISCO, July 28.—Rufus E. Smith, in St. Patrick's Catholic church, Mission street near Third, shortly before noon, a man apparently demented, attacked a worshiper and finally struck down the Rev. Father Ohea, the curate, who rushed down the aisle to intercept him.

After striking the priest in the face, the man fled, but was caught following chase which led down Mission street to Third and thence to a basement on Naumke street where he was cornered by Patrolmen Joseph Clancy and Whelan of the Southern station. He gave the name of Martin Galbreath and was taken to the Detention hospital.

## Postoffice Wanted In Melrose Section

Establishment of a branch post-office in the Melrose section is the object of a petition prepared by business men, which will be sent to Postmaster General Will H. Hayes. Up to the present time, more than 2000 names have been procured, it is announced by G. H. Stevens, secretary of the Melrose Business Men's Association. Object of local authorities to recommending establishment of this branch are based on the ground that such a move would not materially speed up mail delivery, according to Stevens. It is said, however, that the business men of this district protest that they are forced to go for mail to the Fruitvale branch postoffice.

## Petersens To Be Remarried Monday

The wedding ceremony of Captain Walter J. Petersen, former chief of police and captain of detectives of the Oakland police department, and his former wife, Mrs. Florence Petersen, will be solemnized Monday evening, August 1, at the Petersen home, 428 Alhambra street. William W. Friend will officiate. Only close friends and immediate relatives of the couple will attend.

Petersen was recently appointed general manager of the service bureau of the American Shipowners' association. In taking out the marriage license yesterday, Captain Petersen made his occupation as captain of inspectors.

## Nimble Nymphs to Dance at U. C.

REBECCA BREED, clever University of California dancer, who will take part in exercises at the Greek Theater tonight

## DANCING GIRL IN ARTISTIC PROGRAM AT GREEK THEATER

BERKELEY, July 28.—Joseph Paget Fredericks, assisted by a group of dancing girls, will present an hour of dance impressions at the Greek theater of the University of California tonight. The dance interpretations will be given to music of some of the greatest modern composers. The entertainment will begin at 8:30 o'clock, and is open to the public.

Assisting Fredericks will be many local girls, including Rebecca Breed, Ellen Byrne, Christina Jones, Dorothy Churchill, Artemesia Gibson, Margaret Willet, Constance Smart, Eva Escobar and Marian Shannon. Miss Sita Stewart will be pianist. Upon completing his summer school work at the university, Fredericks will go abroad.

The program for tonight's dance interpretations follows:

1. Invocation.....Amanti Ensemble
2. Astrals.....Brahms (The advent on the astral plane of a departed spirit.) Ensemble
3. Prelude.....Rachmaninoff (Gyilippus, a youthful Spartan warrior, wounded unto death, appeals to Athens, who restores him to life.) Joseph Fredericks Ensemble
4. Movement Indoue.....Debussy (Hindu water carriers at the Well of Salfest Tears.) Ensemble
5. Persian Primitive.....Schumann-Chopin Ensemble
6. Gopak.....Mossourgski Joseph Fredericks
7. Mazurka (Dance Suedols). Chopin Ellen Byrne, Artemesia Gibson, Marion Shannon
8. Impromptu Rhythmic.....Chopin Joseph Fredericks
9. Valse (French, 18th Century).....Chopin (Sabette discovers the love letter of Cosette, who, in great agitation, recovers her treasure.) Ensemble
10. Juba (South American).....Dett (In the thirteenth century on the desert of Ica, Manco Capac dances for his supreme god, Pachacamac.) Joseph Fredericks

BERKELEY SPEEDER FINED.  
BERKELEY, July 28.—A. E. Burg, automobile salesman of 2023 Broadway, Oakland, paid \$10 in Judge Robert Edgar's court this morning for speeding at Grove street and Allston way. Burg was given the alternative of one day in the county jail. He chose the latter.

## Artists to Be Paid for Work At Coming Berkeley Festival

BERKELEY, July 28.—That artists as well as unskilled workers be paid a living wage and their talents recognized was the plea voiced last night at a dinner at the Plean and Crown club house preliminary to securing pledges for the three-day music festival to be staged by the Chamber of Commerce in the Greek theater in September.

Charles Keeler, secretary of the Chamber of Commerce, who presided at the meeting, declared that artists could not be expected to give of the talent which formed their chief means of livelihood without compensation. "Artists must be paid a living wage," he declared in asking financial support to meet the expenses of the festival.

W. J. McCoy, composer, declared that the Chamber of Commerce festival at which local talent would be recognized, would serve as a medium

for advertising Berkeley the world over. "The fact that all of the musicians are to be paid for their services, giving substantial recognition, will be enough to divert attention to Berkeley," said McCoy.

Eugene Blanchard voiced an appeal for all singers to cooperate in plans for the event, while Gilbert Moyle, chairman of the art committee of the Chamber of Commerce, explained plans for the festival, and William E. Chamberlain also urged recognition and support of local artists.

Dr. Albert Ehrhart took charge of the distribution of pledge cards for the festival.

It is the aim of the Chamber of Commerce to secure 1000 pledges for season tickets within the next two weeks. Season tickets, entitling owners to reserved seats at all performances, will sell for \$10 each.

## FOR THE BRIDE

Gifted with all the  
Beauty and Charm  
That Nature Invokes  
On a lovely maiden  
The Bride went to  
Housekeeping.  
Untaught in the  
Science of modern  
Convenience in the  
Homes of today.  
Told, Dredgery, and Worry.  
The three enemies of  
Beauty and Grace.  
Have made their handmarks  
Wrinkles and sallow  
Skin is seen, where  
The blush of the rose  
Once reigned.  
How easily might Youth  
Have been preserved had  
I been  
Her home, I am  
THE AFTER WASHES.

International Silver Co.

Who will be pleased to demonstrate the  
silverware, its merits and proper usages.

Maxwell Hardware Co.  
ALWAYS RELIABLE

14th and Washington, Oak.

## FIRST STEPS FOR BIG AUTO PLANT TAKEN

Durant Company Through Its  
Counsel Asks Permit To  
Construct Spur Across East  
14th St.; Report in 5 Days

The first actual move looking toward the construction of the Durant Motor company plant in Oakland was taken today by Attorney Walter J. Durand, representing the company, who requested permission for construction of a railroad spur track across East Fourteenth street from the Southern Pacific main line and along One Hundred and Fifth avenue, stretching behind the plant with side tracks to the various departments.

The matter was referred to the city attorney for a report. Commissioner Edwards asserted that the Durant company had not the Council should grant permission in view of the benefits to Oakland arising from this great industrial plant.

Major Davis took umbrage holding that Edwards was trying to rush a matter which has not been considered by the other commissioners. "That will be up to the council," he said. "Furthermore, the Santa Fe and Western Pacific ought to have as much access to the plant as the Southern Pacific. Refer this to the city attorney."

Acting City Attorney Leon Gray will report within five days. The appointment of Walter J. Hesse, a member of the civil service board, to succeed Ralph Rode was ratified by the council. The civil service board now has a full membership.

A resolution was adopted notifying the bureau of permits and licenses that no new licenses for theaters, movie houses or other amusement places shall be given till the applications are approved by the fire chief and the electrical department.

Further consideration of the proposed amendments to the downtown traffic ordinance, as introduced originally by Commissioner Edwards, was delayed two weeks again by Commissioner Dacus's request.

"I may have some ideas of my own concerning that ordinance," said Dacus, privately. "I will take over the street department August 1, and will then review the matter."

## Democrats To Have Rivals For P. O. Jobs

WASHINGTON, July 28.—Because of complaints that only Democrats were receiving from the Civil Service Commission application blanks with which candidates for postmaster positions may prepare themselves for examination, Postmaster-General Hayes announced today that an additional list of blanks now in preparation would be furnished the commission.

## BURGLARS IN BATTLE WITH HOUSEHOLDER

Alameda Fires Three Shots  
At Thieves As They Flee  
After Robbing Home; Bandits  
Return Fire in Flight

ALAMEDA, July 28.—Two burglars in the wall near the window of the home of S. Pederspiel, 2070 San Jose avenue, bear mute evidence of the desperate character of the two or more men who broke into the place last night. Pederspiel returned the shots and feels certain that he struck one of the machines. The police this morning are making a search of the garages in an effort to locate the machine.

Pederspiel had arrived home only a short time when he heard a couple of machines drive up in front of his home. He paid little more attention until he heard some one inside the house. Then he heard two men start to come upstairs.

He shouted out: "Who is there?" At the same time he turned on the electric lights of the stairway. The invaders ran out the rear door, which they had "knocked" in order to effect entrance.

Pederspiel ran to the window and saw drivers of the two machines making desperate efforts to get under the place. The car nearest the corner had little difficulty but the one in front of the house had trouble in effecting a shift of gears.

As Pederspiel put his head outside the window the man in one of the cars, which one could not tell, fired two shots at him. Both of these lodged in the side of the window within a couple of inches of his head. Pederspiel returned the fire with three shots.

The dark prevented Pederspiel from obtaining a good view of either the men or cars in which they were riding. From the learning sound following one of his shots he feels certain that he at least struck the machine in front of the house.

From the crashing of the guns Pederspiel concludes that neither of the machines were Fords and the one nearest the corner appeared to be of a large type. An inventory of material stolen is being taken.

It is not thought to be great. The men did not have much time to operate. A small quantity of wine which was in the cellar was also taken.

## Demolition His Family

MODESTO, July 28.—Deputy Sheriff Emmett Elmore is on his way to Modesto, Washington, to bring back D. T. Frame, charged with deserting his wife and four minor children. Frame was arrested in the north on information furnished by local authorities.

## War Officially To End On September 1

LONDON, July 28.—The date for the official termination of the war, except as regards Turkey, will be September 1, the prime minister, Lloyd George, announced in the House of Commons today.

## Anonymous \$10 Conscience Money Is Tax Puzzle

THE man whose "conscience is clear" because he sent \$10 to the local internal revenue office to make up for a mistake he made in figuring up the amount of his income tax will oblige by revealing his identity.

After four and a half months of search the office staff today admitted they could not find the discrepancy and, as the man forgot to sign his name to the letter accompanying the remittance, they do not know to whom to credit the money.

It is believed the man did not sign his name fearing that the letter might not be delivered on time and that the strong arm of the law would in that event descend on him and his heirs forever.

The letter was mailed at 9:30 p. m. on March 15 but two and a half hours before the final closing time for income tax payments and has been a thorn in the side of the income tax office ever since.

## STUDENTS IN 13 NATIONS AIDED BY FOUNDATION

NEW YORK, July 28.—The Rockefeller Foundation aided with fellowships in 1920 individuals in thirteen foreign countries who applied to train for institutional or governmental service, and the second installment of the Foundation's annual review, made public today.

Twenty-seven fellows came from the United States for training in public health work.

President George F. Vincent said the foundation added 21 strategically located hospitals and planned to make the Peking Union Medical College and hospital a medical center in the Far East.

## Legal Fight Begun For \$200,000 Estate

SAN FRANCISCO, July 28.—A legal fight was under way here today to tie up the interest of Joseph L. Jaffe of Seattle in the \$200,000 estate left by his mother, partial distribution of which is expected shortly.

Attorneys for Aaron L. Jaffe, a brother of the Seattle man, secured an order to restrain transmission from San Francisco of any funds from the estate to the Seattle brother. Jaffe was brought in the name of Mrs. Ray H. Jaffe to recover \$22,500 alleged to be a result of a stock transaction in which the Seattle man is alleged to have acted as agent.

## Boy Is Burned To Death Playing House

HOOD RIVER, Ore., July 28.—Hal Fuhrman, four-year-old son of Mr. and Mrs. Harold Fuhrman, was burned to death in a small rattle house near his parents' home yesterday. Hal and a little neighbor girl were playing house, using matches to start a fire. Trash in the tiny structure blazed, overcooking the boy before he could escape through the small opening. The girl was badly burned.

## War Officially To End On September 1

LONDON, July 28.—The date for the official termination of the war, except as regards Turkey, will be September 1, the prime minister, Lloyd George, announced in the House of Commons today.

## TALBOT HEIRS FIGHT OVER EXTRA FUNDS

Permanent Legatees and Income Beneficiaries in Novel Contest for Dividends From \$3,000,000 Alameda Estate

A dispute over \$10,000 in income, from the \$3,000,000 estate of the late Frederick C. Talbot, Alameda county banker, came before Superior Judge J. C. Robinson for settlement today in connection with the first settlement of the estate.

The dispute was over whether certain income from extraordinary dividends on stocks in the estate, as opposed to ordinary dividends, should be paid to the heirs who have an interest only in the income or to the permanent legatee or permanent legatees.

Attorneys Jonathan and Hynes, with Attorney Albert H. Rowell, contended the money should be paid into the permanent inheritance fund, Rowell reading an elaborate brief in support of his contention. The trustee in the estate, a San Francisco trust company, agreed with this view, the difference of opinion being among the heirs.

Judge Robinson took a similar attitude and ordered the account settled except as to about \$200 dividends on certain oil stock.

Talbot left 75 per cent of his estate in trust. The principal heir was Sylvia Talbot Helms, an adopted daughter. The account showed a distribution of approximately \$50,000.

## Russian Reds Reply To Hoover Demand

WASHINGTON, July 28.—Secretary Hoover made public today the text of a brief reply received by radio from Maxim Gorky at Petrograd to Hoover's recent message saying American relief in Russia must be preceded by release of Americans detained by Soviet authorities.

"Your message gratefully received," the radiogram said. "Detailed reply will be sent from Moscow by president of Russian famine relief committee."

## Boy Is Burned To Death Playing House

HOOD RIVER, Ore., July 28.—Hal Fuhrman, four-year-old son of Mr. and Mrs. Harold Fuhrman, was burned to death in a small rattle house near his parents' home yesterday. Hal and a little neighbor girl were playing house, using matches to start a fire. Trash in the tiny structure blazed, overcooking the boy before he could escape through the small opening. The girl was badly burned.

## War Officially To End On September 1

LONDON, July 28.—The date for the official termination of the war, except as regards Turkey, will be September 1, the prime minister, Lloyd George, announced in the House of Commons today.

ARE YOU INTERESTED IN BABIES?  
DON'T LET THE MOSQUITOES  
BOTHER YOU

Have you a baby?  
Do you use baby  
food?  
If so, take precautions  
do you take in purchasing  
it?  
Baby food deteriorates  
just the same as other  
food products and your  
baby will get along a  
good deal better if you  
make sure you get good  
fresh baby food.  
We sell great quantities  
of baby food and make  
it in a big variety but  
we always carry small  
amounts of each kind so  
that we can order fresh  
quickly.  
The temptation to buy  
baby food in big quantities  
and save money on  
wholesale costs never ap-  
peals to Bowman's  
Baby Food.  
kinds, wood, leather, straw  
or any other material  
that will take a paint or  
stain.

Word is coming from  
the mountains that mos-  
quitoes are worse this  
year than ever, espe-  
cially near the snow line.  
Local people are com-  
plaining and we are hav-  
ing many calls for some-  
thing to remedy the en-  
croachments of these  
disagreeable pests. The  
most effective remedy we  
know of is Shoo-Flee.  
This liquid contains es-  
sential oils. It is applied  
direct to the skin and  
drives away mosquitoes,  
gnats and fleas. If you  
contemplate a fishing  
trip or go camping in the  
mountains, do not fail to  
take a bottle with you—  
and a bug.

AN IMPORTED  
FACE POWDER  
FOR 50 CENTS

Wonderful Quality—It  
Comes From  
France

The most popular face  
powder in our store comes  
from France. It seems  
that American manu-  
facturers have never been  
able to make face pow-  
ders equal to those manu-  
factured in Europe.

As a rule, imported face  
powders are very expen-  
sive.

Preceda Powder, how-  
ever, comes to this coun-  
try in bulk. It is put in  
packages in the East and  
it is possible for this re-  
ason to sell it at practically  
the same price as domestic  
powders.

Preceda face powder  
comes in all the desired  
tints and sells for 50c a  
box.

We also have a liquid  
face powder called Pre-  
ceda Cream.

Preceda Cream is not  
imported, but it is a splen-  
did first class powder that has  
many, many friends  
among our customers.

BOWMAN'S MILK  
OF MAGNESIA

Have you ever tried  
Bowman's Milk of Mag-  
nesia? Many people dis-  
like to take Milk of Mag-  
nesia because of the un-  
pleasant taste so notice-  
able in many brands.

Our customers tell us  
that Bowman's Milk of  
Magnesia is more palat-  
able than other brands  
and that it contains less  
cream in demand would  
indicate that it has many  
favorable qualities.

Like all of the products  
especially made for this  
store, it is composed of  
the very best ingredients  
possible to obtain.

ENAMEL DUCK  
SUITS CASES

If you are in the mar-  
ket for a light suitcase  
we advise that you look  
at our Enamel Duck line.  
These suitcases look  
like patent leather, they  
wear better than leather,  
and do not  
scratch or crack.

# DEER HUNTING WILL BE PROHIBITED IN LIVERMORE HILLS

## OAKS MAKE A GAME RALLY BUT ARE NOSED OUT BY THE SEATTLE PLAYERS IN FIRST GAME

### Five Oakland Hurlers Are Bumped Hard

Oaks Make Game Try To Win Game in the Final Innings.

SEATTLE, Wash., July 28.—The Oaks staged a great uphill battle and used five pitchers, three southpaws and two right-handers, but they went down 1-2 to the Seattle Indians in the opening game of the series with the Seattle Indians yesterday afternoon. By jumping Krause, Kramer and Arlett and also landing on George (Lefty) Winn for a couple of timely hits in the first five frames, the Seattle club was able to pile up a 9 to 2 lead as early as the fifth inning. But that lead didn't bother the Oaks' men in the least and the ninth inning finally saw them defeat when Babe Priddy, third baseman, fouled out to Adams with a home run. White, who had opened the morning with a double, was sacrificed to third by Koehler and held that base all night.

**OAKS HAVE GOOD CHANCES.**  
It was a wild and woolly contest from start to finish, and a nerve wracker for managers of both teams as well as 2000 home fans. Even in the eighth inning when they scored four runs and gave away one of tying the score, the Oaks left runners die on first and second while the local fans held their breaths fearing that Louie Gusto would bounce one off the boards and lead home a long fly to Buck Lillard. Krause was chased to the showers in the second inning and Kramer who replaced him was also on his way to the sprinkling area in the next inning and Bud Arlett was ejected for fouling out. The Indians staged a three run rally in the fifth, and while it was going on Arlett decided he had better follow Krause and Kramer, so George (Lefty) Winn stepped into take a pounding. Gusto was sent to bat for Winn when the Oaks made their four runs in the eighth and Ernie Allen got by without a score off him. Daley started the chugging for the Indians and lasted until the sixth when a flock of doubles and triples caused Manager Kennerly to send for Francis to his rescue. Then help was sent to Francis in the eighth inning when the Oaks made the attempt to pull the game out of the fire.

**WILLIAMS GET LONG HIT.**  
Claude Cooper, Back Miller and Jack Knight did some heavy sticking for the Oaks. Cooper tripled, Miller tripled and single, while Knight hit a pair of triples and Miller a triple and double. The Indians had a long hit that hit the left field fence on a fly, it being the first time that it has happened since the local team last saw the hills. Kennerly and Stump hit three each for the locals, one of Kennerly's going for a home run. Every one of the Oaks' hits helped in scoring runs. The score:

OAKLAND	AB	R	H	PO	A
Pinelli, 3b	5	2	0	1	1

### President Presents Cup

PRESIDENT HARDING is shown at the Columbia Country Club, Chevy Chase, Mr., presenting to "LONG JIM" BARNES, golf champion of the Phelan Country Club, the national open golf championship trophy, won by Barnes in competition with more than 60 of the world's best golfers. The pride of Phelan scored 289 for the two days' play—the next best score being 298. Among his competitors were the open champions of England, Ireland, Australia and Canada.

### STOCKMEN READY TO REPEL REGULAR ARMY OF BAY CITY NIMRODS

Hunters Warned That Danger Lurks For Those Who Care To Take Chance in Hills

There will be no deer shooting this year in the Livermore mountains. The Livermore Stockmen's Protective Association has made the announcement and the Livermore stockmen are wholly capable of backing up their dictum.

Every acre of range in the Livermore hills, from the top of Mt. Oso to Brushy Peak, and farther than that, now is either owned or controlled within the association and the association at its last meeting voted unanimously to put an end to the ruinous fires that have been the inevitable accompaniment of successive hunting seasons.

Every available vaquero has been pressed into service and sent into the hills with a fixed distrust to patrol. "No shooting" signs are going up along every avenue into the hunting country and the law of trespass is to be rigidly enforced. The first lookouts on Mt. Oso and on Crane ridge are hooked up by phone with each other, and each with the association headquarters in Livermore where a firing squad is kept constantly on the trigger, either to fight fire or give hunters the well known word of the reservation. The lookouts are equipped with powerful glasses and range finders and can detect a gunshot as readily as the wisp of smoke that in that section always means trouble.

The stockmen regret the necessity for their stringent measure as much as the hunters, but they say that they can no longer support the heavy losses due directly to careless or heedless sportsmen. The deadly cigarette butt, the misplaced campfire, the broken bottle left where it will catch the faint kind of a burning glass have cost them tens of thousands of dollars in feed and stock in years past and they cannot understand why they should be expected to pay any such price for somebody else's fun.

Here is the situation as it is sized up by John McGilchay, president of the association:

Base on balls—Off Shea 2. Runs responsible for—Shea 2, Thomas 2. Double play—McAuley to Niehoff to Griggs.

**STICKNEY IS HEATEN.**  
Charlie Stickney, local tennis player and Mrs. Rickaby, of Victoria, were eliminated yesterday in the mixed doubles of the International tennis tournament at Victoria, B. C.

### Wallace Bates In Semi-Finals; Neer Collapses

Stanford Boy Loses Gruelling Set To U. of C. Player.

BOSTON, July 28.—Richard Norris Williams II of Boston Wallace Bates University of California, Zeno Shimizu of Japan, and W. F. Johnson of Philadelphia became semi-finalists in the singles lawn tennis tournament for the Longwood challenge bowl through their victories in the fourth round yesterday.

Williams and Ichika Kuniyoshi played evenly for four sets but in the fifth the former national singles champion won the Japanese of the court with a series of brilliant placements and service aces.

N. W. Viles of Boston winner of the tournament last year was eliminated in straight sets by Shirozumi Johnson was not extended in defeating K. S. Plattman of Boston.

Phil Neer of Leland Stanford, intercollegiate singles champion won the first two sets in his match with Bates but the pace was too fast for him and after he had dropped the third, fourth and fifth sets he collapsed and was under the care of a physician last night. His medical attendant forbade Neer to play in the doubles tournament and his team will forfeit today.

### Jack Dempsey Tells Kind of Bride He Wants

LOS ANGELES, July 28.—(United Press.)—Girls! If you would become Mrs. Heavyweight Champion of the World, here's the kind of a wife Jack Dempsey is seeking: She must be able to wear gingham as well as silk.

She must be a girl with a ready smile, a girl with a pleasant face instead of a beautiful one.

Above all, she must be able to cook.

"That's the kind of a girl I am looking for," said Dempsey again today in denying reports of his secret marriage to a Hollywood film actress.

"Tell the world I'm looking for a home girl, a girl whose brain is occupied with solving the problem of making my home happy and not the 'career' girl who would be more interested in making other homes brighter."

**CLEAN SWEEP FOR U. S.**  
TORONTO, July 28.—The Australian Davis cup tennis team which eliminated the Canadian representatives made a clean sweep of the series with the Dominion players yesterday by taking the two singles contests, played as exhibition matches.

### BASEBALL SCANDAL ABOUT READY FOR PRESENTATION TO THE JURY

Weaver and Felsch Expect To Be Playing in Organized Baseball Some Time This Season.

CHICAGO, July 28.—The baseball scandal case will be in the hands of the jury within 24 hours. It was indicated today by attorneys for the remaining "Black Sox" and the one alleged gambler involved in the "throwing" of the 1919 world series.

The attorneys declared they would confer at the noon recess upon the advisability of resting the case and allow the jury to decide the case of the defendants so confident were they that the state had proved nothing.

The action of Judge Hugo M. Friend yesterday in holding the cases of Ten and Louis Felsch and the attorney that he probably would set aside a verdict of guilty if the jury returned it in the case of Buck Weaver and Happy Felsch and Carl Zuck was understood to have indicated the defense is considering this move.

Leading by the defense would mean the retaining of the Black Sox would not have to take the stand and that the indictments of the White Sox players who were subpoenaed from Washington yesterday with Manager William Cook, a decision and Captain Hal die Collins would not have to testify.

The attorneys who were to confer during the recess of the court on whether the case will be rested on the case of the Felschs and the attorney.

Thomas D. Nash, Benedict Short, Max Leuter and Harry Fieger and A. M. Frumberg.

**WEAVER, FELSCH SMILE.**  
CHICAGO, July 28.—Although technically still listed among the defendants in the famous Black Sox scandal case of the 1919 world series, George (Lefty) Weaver and Happy Felsch were smiling today.

They were smiling because they had been indicted in the past to throw the series. Judge Hugo M. Friend has made it plain that he will not consider a verdict of guilty against them as players.

Weaver and Felsch were openly jubilant when court reconvened this morning. The smiling "Black Sox" undoubtedly predicted they would be playing again with the White Sox within a few weeks.

Whether or not Weaver and Felsch will be restored to good standing in organized baseball however depends upon the action of Judge K. M. Landis has given no indication of what his attitude toward the players will be.

William Veck, president of the Cubs, was the only baseball official who would comment on the case. "I don't know," he said.

Whether they play ball again is something for Judge Landis to decide.

But they can play ball for the Cubs. We don't want them.

A petition signed by 10,000 fans in 1919 to force the owner of the White Sox, as soon as the play-off is exhausted according to his attorney Y. Thomas D. Nash.

### White Sox Testify In Baseball Scandal

WASHINGTON, July 28.—Eight players of the Chicago American League club, subpoenaed as defendants in the trial of the famous White Sox players, left last night for Chicago to testify Friday morning. The summons were Ray Schalk, Eddie Collins, Urban Faber, Buck Weaver, Roy W. Williams, Harvey McCullough, Manager Guion and pitcher Steinbrenner.

**McGRAW SUSPENDED.**  
PITTSBURGH, July 28.—John McGraw, manager of the New York Giants, has been suspended indefinitely by the National League for using "indecent" language toward players during Tuesday's game here. Player Hankling of the Giants, charged with the same offense, was fined \$500.

PACIFIC FOOD PRICES AND WORLD'S COMMERCE

BEER BERRIES EXPECTED, DULL DAY IN MARKETS

Prices Rule Weak When Buyers Fall in Activity At Mid-Week.

Strawberries have been generally of a poor quality for some time, and will come in in better condition and quantity with the advance of the second crop, growers report. Thus far the crop has not been up to expectations and for some days prices have ruled little above the growers' minimum of 50 cents a drawer. A top of 65 has held for two weeks.

Although announcement was made by the growers that extensive preparations had been made to pack berries in barrels for conditional use, growers must, it is considered, have been attended with considerable risk.

In general the crop contraction has been such that several private companies are said to be car-laying of barreled strawberries, for which the market is weak, and any extensive packing operation is being held in check. It is considered, however, that the market will be better attended with considerable risk.

Trading in the produce stalls in Oakland today was dull and draggy. Buyers were not in evidence in numbers and were inclined to restrict takings. At the same time the stalls were well set out with offerings. The result was a general weakening in most prices from lack of support. Peaches particularly declined, being sold down to 15 cents the bushel for the first time this season. Garden vegetables with the exception of lima quotations.

Imperial Valley cantaloupes now have been practically cleared from the market here, all offerings being trucks which will hold the field until river melons arrive. Cantaloupes sold down to 10 cents today. Standard brought about \$2.25. Reports of the Department of Agriculture here show that the Imperial cantaloupe crop to have been a record one. On July 9 the shipments totaled 9522 cars, or 857 cars more than in 1920, the heaviest former year.

Even at this figure ravages of aphids are declared to have resulted in the condemnation of between 60 and 80 per cent of the crop, according to the horticultural inspectors.

Of the same crop a later Southern Pacific bulletin issued today says: "Enough cantaloupes have been shipped out of Imperial over Southern Pacific lines to allow one melon to each person in the United States and still have millions for a second crop. Up to July 15, 1921, the total shipped was 1,500,000 cantaloupes, or 156,000,000 melons—2300 crates to a car and 45 cantaloupes to a crate. Last year up to July 15 there had been shipped 990,000 cars, or 132,150,000 melons, or 2,643,000 crates.

This year's crop required 10,000 cars, equal to a train 100 miles long, the road says. Picking and packing the crop was done in approximately 500 trucks, and in about 1000 automobiles requiring two handlings. According to the railroad officials, 250 more cars of 3712,500 melons will move.

Tomatoes held at yesterday's price today, Stockton's maintaining a minimum of \$1 a lug. No general change is expected for several days. Vegetables generally have made their high for the season, however, and cannot be expected to increase until waning crops affect the supply.

GIRL SWIMMER OF  
OAKLAND RESCUES  
DROWNING WOMANMiss Mildred Warner Defies  
Death To Pull Victim  
Out of River.

Hearing the cries of a girl who was sinking below the surface of the water for the third time, Miss Mildred Warner of Oakland, who is spending her vacation at the recreation camp in the Sierra mountains, leaped into the Tuolumne river and after a desperate battle with the current dragged the girl to safety, according to word received here today.

The name of the girl whom Miss Warner saved from drowning is unknown, but her residence was given as the Claremont hotel, Claremont. The rescue occurred this week.

The unidentified young woman was swimming in the river, in a portion which was beyond her depth. She was evidently an experienced swimmer, but suddenly was stricken with cramps. She screamed for help and sank below the water. Other girls on the shore heard the girl's cries and saw her hands above the water beckoning for help.

Miss Warner was the nearest and without hesitating sprang into the water and began swimming toward the drowning girl. Miss Warner seized the young woman and began making for the shore. The victim was too exhausted to struggle, but the swift current of the river made the progress of the rescuer difficult and time and again it seemed as though she was being carried farther and farther away from the landing.

As she finally reached the shore, eager hands seized the pair and they were carried to the beach, where first aid was rendered to the young woman, who quickly recovered.

Witnesses who saw the rescue said that Miss Warner's act was one of utmost heroism and her friends are seeking official recognition of the deed. Miss Warner received her swimming instructions under Miss Donaldson, swimming teacher for the Y. W. C. A.

Winnipeg, July 28.—The annual meeting of the Presbyterian Synod at Berkeley, here are four stars of the interpresbyterian baseball game which took place at West Field, Berkeley, yesterday. The gentleman at bat is REV. J. C. WILSON. REV. HERMAN PETTIT is receiving and REV. C. H. GASKILL (rear) is waiting his turn at the stick. Below is REV. EARL COCHRAN of Alameda, whose pitching was a feature of the game.

Through Dr. James E. Spear, of San Francisco, the chairman, the New Era committee submitted an amended report this morning, leaving out several suggestions which were the subject of considerable debate when the original report was submitted Tuesday. The report was adopted by the synod.

It was urged that a church extension board for the promotion of the entire work of the church, be established in the San Joaquin presbytery. The church extension boards of the San Francisco and Los Angeles presbyteries were encouraged to enlarge their activities to include the promotion of the entire work of the church at home and abroad.

OPERATING EXPENSES. The report also urged that the synod request through the General Assembly's New Era committee, that the boards and agencies co-operate with the presbyteries in meeting the operating expenses of the boards until such a time as the presbyteries are able to meet the operating budget alone. The activities of the entire synod are to be coordinated under the direction of the New Era committee of the synod, of which the district New Era secretary

and the executive secretaries of the three boards will be ex-officio members.

In a report submitted by the resolutions committee and passed by the synod, a vote of thanks was extended to the officers and members of the First church, Berkeley, for the "comfort and pleasure" extended to the pastors and members of churches throughout the bay region, especially to the First Church of San Francisco and to the Occidental Board, to the women of the First Baptist church, for the meals they provided, the press of the bay region for "complete and helpful reports of synod's work," the Boards of Agencies for "the inspiration they have brought to the new officers of the synod for the enablement in which they performed their duties."

PRESIDENT CHOSEN. Mrs. M. C. Hayes was chosen president of the Woman's Synodical society yesterday, at the closing session of the annual meeting.

Other officers elected were: Vice-presidents, Mrs. P. A. Vales, Mrs. E. A. Denniston, Mrs. L. L. Cross, Mrs. Robert McDonald; recording secretary, Mrs. P. H. Walker; educational secretary, Mrs. David Thomas; secretary of associate members, Miss Alice Moore; secretary of Westminster guilds, Mrs. J. H. Wray; secretary of young people's work, Mrs. Mae Flather; secretary of children's work, Miss M. Schuch; New Era representatives, Mrs. J. Staub and Mrs. Rawlins; wallader.

Specific charges against Smith, according to the police, are various drawings of the company's funds from the bank for personal use. In withdrawing the money the police said Smith withdrew it in the usual manner. A police inspector will be dispatched immediately to Los Angeles to return Smith to face the charge. Other than to say Smith had been a member of the company for a few months since his arrival from the East, officials of the brokerage firm refused to talk.

SYMPHONIC SHAVES. NELLVILLE, Wis., July 28.—Jazz while you are shaved is the latest novelty, and it originated with Floyd Hanson, a former army lieutenant and premier barber. He has a stage for the orchestra in the rear of his shop. Signs on the walls read: "Our Symphonic Shaves Satisfy," "Have a Harmonious Haircut," and "Shimmy Shampoo Saves Scapies."

China has the shortest mile—609 yards.

From the receiving room on an upper floor the marathon rat, day before yesterday, crawled out upon the decorative frieze that runs around the base of the glass dome at the top of the building. This frieze is about three inches wide and apparently did not furnish enough of a thrill for the rat climbed or fell to a lower ledge, which is only about half an inch in width. All day Tuesday and yesterday the women on the main floor of the store were in a panic of apprehension and fear of expectancy, waiting for the rat to miss his precarious footing and fall down among the lingerie and silk stockings. But the rat did not skid. When the store closed last night he was still running.

Patrolman William Cullinan tried the door at 2:30 a. m. and found all secure. At 4:30, on his next round, the panel in the front door had been shattered and the place looted.

## Firstly, Secondly, Thirdly---He's Out

From national problems to the national pastime is only a short step, according to the ministers in attendance at the annual meeting of the Presbyterian Synod at Berkeley. Here are four stars of the interpresbyterian baseball game which took place at West Field, Berkeley, yesterday. The gentleman at bat is REV. J. C. WILSON. REV. HERMAN PETTIT is receiving and REV. C. H. GASKILL (rear) is waiting his turn at the stick. Below is REV. EARL COCHRAN of Alameda, whose pitching was a feature of the game.

STRONGER DRY  
LAWS URGED BY  
PRESBYTERIANS

The greatest meeting in the history of the existence of the Presbyterian Synod of California concluded its final session at 1:30 o'clock this afternoon, adjourning until July 29, 1922, when the annual meeting will be held in the First Presbyterian church at Pasadena. Considered from the standpoint of results accomplished, programs instituted, and the general efficiency with which the conference has been carried on in the First Presbyterian church of Berkeley during the past week, the delegates were unanimous in their decision that the synod this year was the greatest meeting in its history.

Three reports were returned and accepted by the synod at the final business session this morning. The committee on temperance and moral welfare brought in its final report, endorsing the Eighteenth amendment to the constitution of the United States and urging a closer cooperation between moving picture producers and the church, in order that the character of pictures shown may be raised considerably. The resolution, in part, is as follows:

PROHIBITION MAILED. "We hail with unmeasured gratification the Eighteenth Amendment to the Constitution of the United States. We denounce as morally chaotic and un-American the sinister attack of the liquor traffic on the constitution."

"We commend that the church urge anew, through every avenue of her influence, respect for law, love for the flag, reverence for the Constitution and maintenance of the Eighteenth Amendment on the part of everyone who would be an American."

"To those charged with the enforcement of the liquor laws we pledge our utmost support in their difficult work. We would urge upon the representatives in Congress to see that the National prohibition act is never weakened but rather strengthened wherever it may be weak."

WRIGHT ACT FAVORED. "We commend the Wright Enforcement Act. Though passed by the legislature and signed by the Governor, it has been re-referenced by the liquor interests. Therefore we must wait patiently, but work with ceaseless energy, until November, 1922, when California will set her seal upon it through the ballot."

"The moving picture has become a mighty influence in American life. Its influence at present is unspeakably bad. It may be converted into an influence of incalculable good. The church owes it to the community to keep in touch with the moving pictures' interests, discriminate severely against what is evil and generously commend that which is good."

"We are concerned with the use of tobacco, particularly among women and children. America is not ready to sacrifice her women and children to the tobacco trust. Yet it is difficult for a man with a cigar in his mouth to preach effectively to a boy with a cigarette in his mouth."

SCORES TOBACCO HABIT. "We suggest the best way to beat the tobacco trust is for the men of

America themselves to renounce the habit which in its moral and physical effect is, to say the least, very questionable."

Through Dr. James E. Spear, of San Francisco, the chairman, the New Era committee submitted an amended report this morning, leaving out several suggestions which were the subject of considerable debate when the original report was submitted Tuesday. The report was adopted by the synod.

It was urged that a church extension board for the promotion of the entire work of the church, be established in the San Joaquin presbytery. The church extension boards of the San Francisco and Los Angeles presbyteries were encouraged to enlarge their activities to include the promotion of the entire work of the church at home and abroad.

OPERATING EXPENSES. The report also urged that the synod request through the General Assembly's New Era committee, that the boards and agencies co-operate with the presbyteries in meeting the operating expenses of the boards until such a time as the presbyteries are able to meet the operating budget alone. The activities of the entire synod are to be coordinated under the direction of the New Era committee of the synod, of which the district New Era secretary

and the executive secretaries of the three boards will be ex-officio members.

In a report submitted by the resolutions committee and passed by the synod, a vote of thanks was extended to the officers and members of the First church, Berkeley, for the "comfort and pleasure" extended to the pastors and members of churches throughout the bay region, especially to the First Church of San Francisco and to the Occidental Board, to the women of the First Baptist church, for the meals they provided, the press of the bay region for "complete and helpful reports of synod's work," the Boards of Agencies for "the inspiration they have brought to the new officers of the synod for the enablement in which they performed their duties."

China has the shortest mile—609 yards.

From the receiving room on an upper floor the marathon rat, day before yesterday, crawled out upon the decorative frieze that runs around the base of the glass dome at the top of the building. This frieze is about three inches wide and apparently did not furnish enough of a thrill for the rat climbed or fell to a lower ledge, which is only about half an inch in width. All day Tuesday and yesterday the women on the main floor of the store were in a panic of apprehension and fear of expectancy, waiting for the rat to miss his precarious footing and fall down among the lingerie and silk stockings. But the rat did not skid. When the store closed last night he was still running.

Patrolman William Cullinan tried the door at 2:30 a. m. and found all secure. At 4:30, on his next round, the panel in the front door had been shattered and the place looted.

TOBACCO HABIT  
ARRAIGNED IN  
RESOLUTIONS

The greatest meeting in the history of the existence of the Presbyterian Synod of California concluded its final session at 1:30 o'clock this afternoon, adjourning until July 29, 1922, when the annual meeting will be held in the First Presbyterian church at Pasadena. Considered from the standpoint of results accomplished, programs instituted, and the general efficiency with which the conference has been carried on in the First Presbyterian church of Berkeley during the past week, the delegates were unanimous in their decision that the synod this year was the greatest meeting in its history.

Three reports were returned and accepted by the synod at the final business session this morning. The committee on temperance and moral welfare brought in its final report, endorsing the Eighteenth amendment to the constitution of the United States and urging a closer cooperation between moving picture producers and the church, in order that the character of pictures shown may be raised considerably. The resolution, in part, is as follows:

PROHIBITION MAILED. "We hail with unmeasured gratification the Eighteenth Amendment to the Constitution of the United States. We denounce as morally chaotic and un-American the sinister attack of the liquor traffic on the constitution."

"We commend that the church urge anew, through every avenue of her influence, respect for law, love for the flag, reverence for the Constitution and maintenance of the Eighteenth Amendment on the part of everyone who would be an American."

"To those charged with the enforcement of the liquor laws we pledge our utmost support in their difficult work. We would urge upon the representatives in Congress to see that the National prohibition act is never weakened but rather strengthened wherever it may be weak."

WRIGHT ACT FAVORED. "We commend the Wright Enforcement Act. Though passed by the legislature and signed by the Governor, it has been re-referenced by the liquor interests. Therefore we must wait patiently, but work with ceaseless energy, until November, 1922, when California will set her seal upon it through the ballot."

"The moving picture has become a mighty influence in American life. Its influence at present is unspeakably bad. It may be converted into an influence of incalculable good. The church owes it to the community to keep in touch with the moving pictures' interests, discriminate severely against what is evil and generously commend that which is good."

"We are concerned with the use of tobacco, particularly among women and children. America is not ready to sacrifice her women and children to the tobacco trust. Yet it is difficult for a man with a cigar in his mouth to preach effectively to a boy with a cigarette in his mouth."

SCORES TOBACCO HABIT. "We suggest the best way to beat the tobacco trust is for the men of

America themselves to renounce the habit which in its moral and physical effect is, to say the least, very questionable."

Through Dr. James E. Spear, of San Francisco, the chairman, the New Era committee submitted an amended report this morning, leaving out several suggestions which were the subject of considerable debate when the original report was submitted Tuesday. The report was adopted by the synod.

It was urged that a church extension board for the promotion of the entire work of the church, be established in the San Joaquin presbytery. The church extension boards of the San Francisco and Los Angeles presbyteries were encouraged to enlarge their activities to include the promotion of the entire work of the church at home and abroad.

OPERATING EXPENSES. The report also urged that the synod request through the General Assembly's New Era committee, that the boards and agencies co-operate with the presbyteries in meeting the operating expenses of the boards until such a time as the presbyteries are able to meet the operating budget alone. The activities of the entire synod are to be coordinated under the direction of the New Era committee of the synod, of which the district New Era secretary

and the executive secretaries of the three boards will be ex-officio members.

In a report submitted by the resolutions committee and passed by the synod, a vote of thanks was extended to the officers and members of the First church, Berkeley, for the "comfort and pleasure" extended to the pastors and members of churches throughout the bay region, especially to the First Church of San Francisco and to the Occidental Board, to the women of the First Baptist church, for the meals they provided, the press of the bay region for "complete and helpful reports of synod's work," the Boards of Agencies for "the inspiration they have brought to the new officers of the synod for the enablement in which they performed their duties."

PRESIDENT CHOSEN. Mrs. M. C. Hayes was chosen president of the Woman's Synodical society yesterday, at the closing session of the annual meeting.

Other officers elected were: Vice-presidents, Mrs. P. A. Vales, Mrs. E. A. Denniston, Mrs. L. L. Cross, Mrs. Robert McDonald; recording secretary, Mrs. P. H. Walker; educational secretary, Mrs. David Thomas; secretary of associate members, Miss Alice Moore; secretary of Westminster guilds, Mrs. J. H. Wray; secretary of young people's work, Mrs. Mae Flather; secretary of children's work, Miss M. Schuch; New Era representatives, Mrs. J. Staub and Mrs. Rawlins; wallader.

Specific charges against Smith, according to the police, are various drawings of the company's funds from the bank for personal use. In withdrawing the money the police said Smith withdrew it in the usual manner. A police inspector will be dispatched immediately to Los Angeles to return Smith to face the charge. Other than to say Smith had been a member of the company for a few months since his arrival from the East, officials of the brokerage firm refused to talk.
